Many of us want to make change in our world but no one's ever told us how. As a teacher you can demonstrate to your students that they can be part of the solution to issues that matter to them. But activism doesn't start with slogans or sit-ins; it begins with critical awareness. Critical awareness begins with strong reading and writing habits. And powerful reading and writing instruction begins with Jessica Singer's *Stirring Up Justice*. *Stirring Up Justice* takes you through her language arts workshops to reveal the many possibilities for improving critical awareness and to prove what a potent and lasting effect social activism can have on students. Beginning with teaching adolescents specific tools and strategies for understanding their world, Singer shows you how to combine critical skills with content area knowledge in project-based invitations that encourage educated, engaged citizenship. With a teacher's touch and an activist's imagination, Singer shares how she transformed her classroom into a force for positive social change by focusing her curriculum and her teaching on the core theme of social activism. You'll discover how she created a reading and writing community that used creativity, rigor, and a shared sense of purpose to create meaningful and relevant outcomes. Full of practical, ready-to-use handouts as well as useful lists of suggested resources, examples of student writing, reflections, and final projects, *Stirring Up Justice* gives you the best way to make change in your classroom: a social justice-centered curriculum. **Keep Our World Green** Frieda

Wishinsky, 2025-05-13 Green space is good for us all. Parks and gardens bring life to communities big and small all over the world and provide a habitat for native plants and animals. Ensuring access to these outdoor spaces can inspire art, music, and literature and create ways for communities to grow their own food. But today green space everywhere is at risk. *Keep Our World Green* looks at how green space has evolved throughout history from the first public garden to the origins of bonsai trees. It examines the political, social, and environmental challenges of maintaining green spaces because of pollution, inequality, and the effects of the climate crisis. It also introduces the people working to protect these places for the future; you can be a green space activist too. Come on, let's take a walk in the park together.
