Legal Treatises Lynne A. Greenberg, 2017-12-02 The texts reproduced in facsimile in the three volumes of *Legal Treatises* reconstruct the legal status of the early modern Englishwoman To facilitate a reading of the treatises by broadly defining many of the laws discussed in great detail in the treatises a general introduction to the laws of the period provides concise overviews of the structure of the English legal system the legal education of practitioners of the law the kinds of legal literature produced in the period and the legal position of early modern Englishwomen A bibliography of important secondary scholarship devoted to the early modern Englishwoman s legal position assists the reader in obtaining more specialized knowledge In addition to the general introduction a separate introduction to each of the reproduced works is provided including information about each work s publication and authorship intended audience content and reception In order to provide this framework for the years 1600 1750 this first volume of *Legal Treatises* reproduces *The Lawes Resolutions of Womens Rights* 1632 the first known treatise devoted to the legal rights of women *The Womans Lawyer* as the treatise s running headline and spine title read was published anonymously in 1632 the title page fails to identify the original author of the work and its authorship remains in question today At over 400 pages the text represents a massive effort of consolidation organizing the disparate and hitherto uncompiled aspects of the common law applicable to women into a logical framework It is unusual among early modern legal treatises in its stated goal of providing a popular kind of instruction to its readers

Informal Markets and Trade in Central Asia and the Caucasus Susanne Fehlings, Hasan H. Karrar, 2022-04-11 This edited book introduces new research on informal markets and trade in Central Asia and the Caucasus The research presented in this volume is based on recent field research in Armenia Georgia Kazakhstan and Kyrgyzstan as well as Beijing Guangzhou Yiwu and the Xinjiang Uyghur Autonomous Region in China The nine chapters in this book illustrate how informal markets and trade in Central Asia and the Caucasus have provided space for millions of people across the region to negotiate changes in state and society in the three decades since the breakup of the Soviet Union and the emergence of successor states Collectively the book suggests that informality should be seen as a normative order for polities in Central Asia and the Caucasus for three reasons 1 The inability or unwillingness of the states to measure commercial transactions 2 The highly personalized nature of small business operations that rest on networking and social relations oral agreements and trust 3 Markets and bazaars being embedded within states in which clientelism frequently thrives This book is a significant new contribution to the study of trade and informal markets in Central Asia and the Caucasus and will be a great resource for academics researchers and advanced students of Sociology History Politics Business Economics Social Anthropology and Geography The chapters in this book were originally published as a special issue of the journal Central Asian Survey

A Body of Divinity in miniature, designed for the use of the youth of Great Britain and France John Collett RYLAND, 1790

The Novels of Arun Joshi Birendra Pandey, 2000 Roald Amundsen Tor Bomann-Larsen, Pen Hadow, Ingrid Christopherson, 2011-08-31 On 14 December 1911 the Norwegian explorer Roald Amundsen and his team became the first human beings to reach the South Pole just over a month before Robert Falcon Scott's ill-fated Terra Nova expedition He had already led the first expedition to traverse the North West Passage and would go on to lead the first successful attempt to cross the Arctic by air perhaps even becoming the first to reach the North Pole according to some interpretations Yet his personal life was messy to say the least with a string of mistresses including Eskimo girls he brought back to Norway and a poisonous relationship with his brother He disappeared in 1928 while taking

part in an airborne rescue mission in the Arctic his body was never found Tor Bomann Larsen's account of his life is the only full biography of Amundsen to be published in English

Human Insecurity David Roberts, 2013-07-04 Human Insecurity is concerned with our refusal to confront the millions of avoidable deaths of women and children each year Those missing millions are rarely the subject of conventional security studies yet such avoidable deaths are a vital part of the notion of security more broadly understood The book argues that such deaths are caused by the man made structures of neoliberalism and andrarchy and argues that the debate on human security can be reinvigorated by looking at the unarmed civilian role in causing the deaths of millions of innocent people from child deaths from preventable disease to honour killings David Roberts claims that by facing up to this relationship between social structures and massive avoidable human suffering we can create another system less prone to global violence This book is a powerful intervention in the debate on human security and an urgent call to face up to our responsibilities to the millions killed needlessly each year

In Defence of the Imagination Helen Gardner, 1982 Helen Gardner is a vigorous and eloquent champion of traditional literary values These values have been subverted she feels by some of the ablest of modern academics and by prevalent tendencies in criticism and teaching today She discusses the new schools of criticism which exalt the sometimes unintelligible theorist above the creator of the work of art the imaginative interpreter of life or which replace the authority of the author with that of the reader She regrets the tendency of teachers to emphasize contemporary literature to the neglect of the great writings of the past and to teach past literature only if it can somehow be made relevant She reproves theater directors who distort Shakespeare's plays and who convert serious drama into happenings And she finds that biographers of writers are so preoccupied with the inner lives of their subjects that the writings become psychological documents rather than works of the imagination In a closing chapter partly autobiographical she affirms the values she has found in a life devoted to the study of literature Even the most polemical sections of the book are courteous and good humored Her own lucidity range of reference and passionate concern for literature are in themselves powerful affirmations of her argument
