Man Child A Study Of The Infantilization Of Man:

Man-child David Jonas, Doris Klein, 1970 *Consumed: How Markets Corrupt Children, Infantilize Adults, and Swallow Citizens Whole* Benjamin R. Barber, 2008-03-17 Powerful and disturbing No one who cares about the future of our public life can afford to ignore this book Jackson Lears A powerful sequel to Benjamin R Barber s best selling Jihad vs McWorld Consumed offers a vivid portrait of a global economy that overproduces goods and targets children as consumers in a market where there are never enough shoppers and where the primary goal is no longer to manufacture goods but needs Disturbing provocative and compelling this book examines phenomena as seemingly disparate as adolescent fashion trends for adults megachurches declining voter participation the privatization of the public sphere branding and the rise of online shopping to show how the freedoms of the free market have undermined the freedoms of the deliberative adult citizen Barber brings together extensive empirical research with an original theoretical framework for understanding our contemporary predicament **Schizophrenia Bulletin** ,1975 *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70 **Infantilised: How Our Culture Killed Adulthood** Keith J. Hayward,2024-06-27 Infantilised How Our Culture Killed Adulthood is the definitive grown up s guide to a cultural landscape predicated on the primacy and constancy of youth **Children in the Films of Steven Spielberg** Adrian Schober, Debbie Olson, 2016-04-13 To say that children matter in Steven Spielberg s films is an understatement Think of the possessed Stevie in *Something Evil* TV Baby Langston in *The Sugarland Express* the alien abducted Barry in *Close Encounters* Elliott and his unearthly alter ego in *E T* the war damaged Jim in *Empire of the Sun* the little girl in the red coat in *Schindler s List* the mecha child in *A I* the kidnapped boy in *Minority Report* and the eponymous boy hero of *The Adventures of Tintin* There are many other instances across his oeuvre Contradicting his reputation as a purveyor of popcorn entertainment Spielberg s vision of children childhood is complex Discerning critics have begun to note its darker underpinnings increasingly fraught with tensions conflicts and anxieties But while childhood is Spielberg s principal source of inspiration the topic has never been the focus of a dedicated collection of essays The essays in *Children in the Films of Steven Spielberg* therefore seek to address childhood in the full spectrum of Spielberg s cinema Fittingly the scholars represented here draw on a range of theoretical frameworks and disciplines cinema studies literary studies audience reception critical race theory psychoanalysis sociology and more This is an important book for not only scholars but teachers and students of Spielberg s work and for any serious fan of the director and his career [Sociology Through the Projector](#) Bulent Diken, Carsten Bagge Laustsen, 2008-10 *Sociology through the Projector* takes issue with the question of how contemporary film can help answering the general abstract but still urgent question what is the social today This book explains the performative relation to contemporary social theory in which cinema functions as a tool for social diagnosis There is much to be learned about social theory through an encounter with films as films are part and parcel of the society

they portray Increasingly more lay knowledge about social problems and facts stems from cinema as it offers to large audiences a popular and pedagogical introduction to social knowledge Social theory cannot avoid a critical engagement with cinema as cinema interprets invents displaces and distorts the object of sociological inquiry This book will provide a deeper understanding of contemporary social theory as the chosen films will work as a pedagogical route into contemporary social theory The films represent a mix of European and American blockbusters and more aesthetically orientated films The authors question several dominant topics and concerns within social theory and film studies Firstly by cross examining a series of concepts such as identity representation memory and surveillance filming social behaviour which are of concern to both film theory and social theory Secondly by trying to develop imaginative approaches to standard social concerns such as exclusion gender roles and inequalities power infantilisation and commodification of the social and psychological bonds This book will be a great resource for students and researchers of Sociology Contemporary Social Theory Film Studies and Cultural Studies

Growing Young Ashley Montagu, 1988-12-30 In this new revised edition of his landmark book Montagu compels us to reevaluate the way we think about growth and development in all its phases throughout life Humans are designed to grow and develop their childlike qualities and not to become the ossified adults prescribed by society Montagu demonstrates how our culture schools and families are in conspiracy against such childlike traits as the need to love to learn to wonder to know to explore to think to experiment to be imaginative creative and curious to sing dance or play He also reveals the many links between physical and mental aging and tells how to prevent psychosclerosis the hardening of the mind so that we can die young as late as possible The best statement ever written on the most important neglected theme of human life and evolution Stephen Jay Gould Harvard University In this new revised edition of his landmark book Montagu compels us to reevaluate the way we think about growth and development in all its phases throughout life Humans are designed to grow and develop their childlike qualities and not to become the ossified adults prescribed by society Montagu demonstrates how our culture schools and families are in conspiracy against such childlike traits as the need to love to learn to wonder to know to explore to think to experiment to be imaginative creative and curious to sing dance or play He also reveals the many links between physical and mental aging and tells how to prevent psychosclerosis the hardening of the mind so that we can die young as late as possible

The Publishers Weekly, 1972 **Ontogeny and Phylogeny** Stephen Jay Gould, 1985-01-17 Ontogeny recapitulates phylogeny was Haeckel's answer to 19th century biology's most vexing question what is the relationship between individual development and the evolution of species and lineages Gould documents the history of the idea of recapitulation from its first appearance among the pre Socratics to its fall in the early 20th century **Book World**, 1970

Media Capitalism Thomas Klikauer, 2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism Media capitalism also

creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book s historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society

Psychological Aspects of Modernity Jerome Braun,1993-08-23 Braun s work has a strong psychological focus on the ramifications of social change with emphasis on modernization for meeting the psychological needs of the people involved What is unique about the work it represents the collaboration of seven scholars in such fields as philosophy psychology sociology and political science is that it makes a serious attempt to provide a realistic and relevant framework of analysis for interpreting the way the human personality reacts to strain and pressure including cultural and social change As societies become increasingly bureaucratic anonymous and materialistic and social relationships become increasingly segmented rather than holistic it is important to study how basic human needs are fulfilled and how personalities are molded
