Text and Context of Tlingit Oral Tradition Richard Dauenhauer, 1975 The present thesis is the first to study the relationship of text and context in Tlingit oral tradition and to demonstrate the congruence of Tlingit oral literary structure and social structure Oral publication of stories songs and speeches follows patterns of exchange common to reciprocity of other goods and services Basic to this congruence are the Tlingit clan and

kinship systems and the concept of ownership of oral materials Ownership is recognized by audience and tradition bearer alike and is usually stated in the oral text itself although it seems to have been edited out of most written publications The method of the thesis utilizes a combination of three critical approaches The functional emphasizes the individual tradition bearer his reaction to folklore research his attitude toward his material and the effect of oral composition on the Tlingit community The oral formulaic addresses problems of style and compositional devices and provides explication and exegesis in general The structural approach extends observations on the text and field observations into the dimension of social structure Leaf 1 English in Context , *Precarious Parenthood* Tina-Karen Pusse,Katharina Walter,2013 We all experience parenthood if not as parents then by way of having been parented or in the face of ubiquitous images of idyllic family life in the longing to be parents or to be parented Thus parenthood is one of the most powerful social constructs This collection of essays gives evidence of the fact that families have never been real that family like gender or race is not primarily based on biological criteria but above all has to be performed and is a result of narratives The relationship between these narratives their variations in Irish English German Mexican and Chilean literature or film and their material confinement is at the core of the essays gathered in this book Series Cultural Studies Kulturwissenschaft Estudios Culturales Etudes Culturelles Vol 40 *Text and Context in the History, Literature, and Religion of Orissa* Angelika Malinar,Johannes Beltz,Heiko Frese,2004 The Last Decades Of The 20Th Century Have Witnessed An Enlarged Understanding Of The Notion Of Text As Not Only Comprising Written Documents But Also Rituals Artefacts Etc And Brought It Closer To The Social Religious Or Historical Contexts That Help To Interpret Texts In Dealing With The Interdependence Between Text And Context The Essays Here Provide Fresh Insights To The Complexity And Fluidity Of Cultural Contexts That Use Text As Stable Points Of Reference In This Book The Traditions Of Orissa Are Considered In Their Uniqueness As Well As In Their Relationship To South Asian Cultural Contexts On A Larger Scale **Forthcoming Books** Rose Arny,2002-02 **The Dead Sea Scrolls in Their Historical Context** Timothy Lim,Larry W. Heidegger and the Problem of Consciousness Nancy J. Holland,2018-07-06 Nancy J Holland turns to the thought of Martin Heidegger to help understand an age old philosophical question Is there a split between the body and the mind Arguing against philosophical positions that define human consciousness as an overarching phenomenon or reduce it to the brain or physicality Holland contends that consciousness is relational and it is this relationship that allows us to inhabit and negotiate in the world Holland forwards a complex and nuanced reading of Heidegger as she focuses on consciousness being and what might constitute the animal or more broadly other than human world Holland engages with the depth and breadth of Heidegger s work as she opens space for a discussion about the uniqueness of human consciousness
