Saturday Review of Politics, Literature, Science and Art ,1864 *Of Relations and the Dead* Cecile Barraud,Daniel de Coppet,Andre Iteanu,Raymond Jamous,2020-09-13 Exchanges are fundamental to human societies The authors show that the study of exchanges not only serves as a key to understanding particular societies as totalities but also helps to frame a comparative mode of analysis expressed in terms of a hierarchy of values Starting with a comparative analysis of the different vocabularies used when dealing with exchange the authors go on to provide a detailed account of how each society s exchanges form a genuine value oriented system Their conclusions shed light on important issues in anthropology such as the difference between subject and object the construction of the person in the matrix of social relations and the contrast between socio cosmic systems and other societies which recognize a universal term of reference beyond their community
