Stern, 2013-01-01 The first English language collection devoted to Hegel's Philosophy of Subjective Spirit *A Half-century of Greatness* Frederic Ewen, 2007-09 A Half Century of Greatness paints a vivid and dramatic picture of the creative thought of mid to late nineteenth century Europe and the influence of the unsuccessful Revolutions of 1848 It reveals often unexpected links between novelists poets and philosophers from England Germany Austria Hungary Russia and Ukraine especially Dickens Carlyle Mill the Brontës and George Eliot Hegel Strauss Feuerbach Marx Engels Wagner and several German poets the Hungarian poet Sándor Petőfi Gogol Dostoevsky Bakunin and Herzen in Russia and the great Ukrainian poet Shevchenko The book was reconstructed and edited by Dr Jeffrey Wollock from Ewen's final manuscript It includes the author's own reference citations throughout a reconstructed bibliography and an updated further reading list This is Ewen's last work the long lost companion to his *Heroic Imagination* Together these books present a panorama of the social political and artistic aspects of European Romanticism especially foreshadowing and complementing recent work on the relation of Marxism to romanticism Anyone interested in what Lukács called Romantic anticapitalism who appreciates such books as Marshall Berman's *Adventures in Marxism* 1999 Lwy Sayre's *Romanticism against the Tide of Modernity* 2001 or E P Thompson's *The Romantics* 1997 will find the Ewen volumes a welcome addition

Semitic Philosophy Philip Christopher Friese, 1890 **Hegel's Philosophical Psychology** Susanne Herrmann-Sinai, Lucia Ziglioli, 2016-03-31 Hegel's Philosophical Psychology draws attention to a largely overlooked piece of Hegel's philosophy his substantial and philosophically rich treatment of psychology at the end of the *Philosophy of Subjective Spirit* which itself belongs to his main work the *Encyclopaedia of the Philosophical Sciences* This volume makes the case that Hegel's approach to philosophy of mind as developed within this text can make an important contribution to current discussions about mind and subjectivity and can help clarify the notion of spirit *Geist* within Hegel's larger philosophical project Scholars from different schools of Hegelian thought provide a multifaceted overview of Hegel's Psychology Part I begins with an overview of Hegel's Philosophy of Subjective Spirit which outlines both its historical context and its systematic context within Hegel's philosophy of subjective spirit Parts II and III then investigate the individual chapters of the sections on psychology the theoretical mind and the practical and free mind The volume concludes by examining the challenges which Hegel's Psychology poses for contemporary epistemological debates and the philosophy of psychology Throughout the volume brings Hegel's views into dialogue with 20th and 21st century thinkers such as Bergson Bourdieu

Philosophical Foundations Friedrich Julius Stahl, 2022-01-12 Philosophical Foundations is an introduction to the philosophy of law but it also furnishes the foundations for a Christian philosophy In this ethically discombobulated time it provides us with the metaphysical and ethical tools to slash our way through the wilderness of ideologies and power craving opinions which threaten to overwhelm civilization Indeed a solid metaphysical and ethical framework is the crying need of our age and the indispensable presupposition for the various arts and sciences that make up the encyclopedia circle of learning The most basic datum such a framework can provide is very simply the either or of a personal God from Whom all things originated or an ultimate reality that is impersonal That is the starting point for inquiry And it cannot be the case that the decision for an impersonal ultimate reality is a requirement for science Functional atheism can be no requirement for participation either in academia or in public life and policymaking Is science truly science that ignores the most basic fact of existence the existence of God It cannot be so If there were a God and He created the world should that not be accepted because it is unscientific If reason really did not carry the world in itself and could not find the world out by itself would it nevertheless have to remove the world from itself because that alone would be scientific One might just as well require on the basis of science that man should not be born but rather should exist from eternity or that man should feed himself from himself without food or that the eye should see of itself without objects and their impressions from outside Scientificness demands that you be gods but the fact is that you are only human do you have to comply with scientificness Is it the trick to explain the world without God in and for itself regardless of whether the explanation is sufficient is this the essence and the glory of the scientific character It is no subjection of science to authority if one expects of it that its knowledge should correspond to the object No natural scientist will want to avoid the fact that his teaching must pass the test of the phenomena of nature and yet the philosopher should have the privilege of his teaching merely being seen as logically consistent in order to be considered true even if contradicted by all the facts even if it leaves the great object it is supposed to solve untouched The proof of the pudding is in the eating for the Christian worldview is the only key that unlocks the riddle of life the only explanation of the otherwise unfathomable reality in which we live Systematic Theology Volume III Charles Hodge D.D., 2016-12-14 Continuing on in the final book on his mammoth work on theology Hodge finishes his thoughts on the work of Christ Salvation and the Holy Spirit He lines out the thinking and fallacies of many evangelical and Roman Catholic schools of thought while clearly explaining the Reformed way of thinking He concludes this tome with the Calvinist teachings on the final days of both the earth and humanity when they die Again laying bold arguments for the Reformed way of thinking Hodge is able to articulate clearly and Biblically this way of theological thought while giving credence to the past **Marx's Critique of Political Economy Volume One** Allen Oakley, 2013-11-05 Volume One

analyses the intellectual sources and evolution of Marx's critique of political economy leading up to the writing of the main Capital manuscripts 1844-1860. The volume provides a clear illustration of the contents of the texts in a way that enables readers to understand the intellectual influences on Marx. Clarifies Marx's own view of what he was trying to achieve through his critique of political economy. The themes of value, income distribution and the law of motion of capitalism are traced to their origins. **The Edinburgh Review**, 1816. *Christ the Spirit* Ethan Allen Hitchcock, 1874. **Back to Marx** Yibing Zhang, 2014. Without a doubt Karl Marx's philosophical work had a huge impact on western concepts of society and economics that still reverberates in the philosophical discourse. In the analysis of this ongoing discourse however the work of Chinese scholars is underrepresented. This book is a translation of the reference work *Back to Marx* first published in 1999 in the PRC. The book is a serious inquiry into the interrelationships between Marx's political and economic philosophy based on careful and systematic reading of a wide range of textual sources including in particular the newly published second edition of the Complete Works of Marx and Engels MEGA2 which collects notes, drafts, manuscripts and excerpts previously unavailable to the scholarly community. The author Zhang Yibing teaches philosophy at the University of Nanjing and is one of the foremost scholars of Marxism in the PRC, a Marxist analyst of contemporary philosophical issues. At the same time he is the Vice Chancellor of the University. *Philosophy and the Absolute* R.G. McRae, 1985-07-31. I have purposely limited myself to a rather brief statement in this introduction in order that the summing up be not misrepresented for the discursive development of the whole. There is something more than mildly dangerous in setting oneself a series of goals in an introduction only to find them happily attained in the conclusion as if getting from the beginning to the end was simply a question of transition. Of course the destination of a speculative presentation includes the process of development in such a way that the end is always implicitly the beginning; each configuration simply forms a determinate moment within the ongoing manifestation of the absolute. It is around Hegel's concept of the absolute, how it is known and how it presents itself which the bulk of our discussion turns. We may say tentatively that the absolute speaks. This speaking is the manifestation of the absolute itself, not a dissimulation or mere appearance and consequently can be known and known most perfectly in language. In Hegel's system this speaking or discourse has exhausted itself and is complete but in what manner this close is achieved remains the question which disturbs and provokes our own speech in what is to come. Hegelianism John Edward Toews, 1980. This is a study of the rise of Hegelian thought in the nineteenth century. **Kierkegaard's Concept of Faith** Merold Westphal, 2014-08-11. In this book renowned philosopher Merold Westphal unpacks the writings of nineteenth century thinker Søren Kierkegaard on biblical Christian faith and its relation to reason. Across five books: *Fear and Trembling*, *Philosophical Fragments*, *Concluding Unscientific Postscript*, *Sickness Unto Death* and *Practice in Christianity* and three pseudonyms Kierkegaard sought to articulate a biblical concept of faith by approaching it from a variety of perspectives in relation to one another. Westphal offers a careful textual reading of these major discussions to present an overarching

analysis of Kierkegaard's conception of the true meaning of biblical faith. Though Kierkegaard presents a complex picture of faith through his pseudonyms, Westphal argues that his perspective is a faithful and illuminating one, making claims that are important for philosophy of religion, for theology, and most of all for Christian life as it might be lived by faithful people.

18th and 19th Century German Philosophy Frederick Charles Copleston, 2003-01-01. Copleston, an Oxford Jesuit and specialist in the history of philosophy, first created his history as an introduction for Catholic ecclesiastical seminaries. However, since its first publication, the last volume appearing in the mid 1970s, the series has become the classic account for all philosophy scholars and students. The 11-volume series gives an accessible account of each philosopher's work but also explains their relationship to the work of other philosophers.
