**Authorship in Film Adaptation** Jack Boozer, 2009-06-03 Authoring a film adaptation of a literary source not only requires a media conversion but also a transformation as a result of the differing dramatic demands of cinema The most critical central step in

this transformation of a literary source to the screen is the writing of the screenplay The screenplay usually serves to recruit producers director and actors to attract capital investment and to give focus to the conception and production of the film project Often undergoing multiple revisions prior to production the screenplay represents the crucial decisions of writer and director that will determine how and to what end the film will imitate or depart from its original source Authorship in Film Adaptation is an accessible provocative text that opens up new areas of discussion on the central process of adaptation surrounding the screenplay and screenwriter director collaboration In contrast to narrow binary comparisons of literary source text and film the twelve essays in this collection also give attention to the underappreciated role of the screenplay and film pre production that can signal the primary intention for a film Divided into four parts this collection looks first at the role of Hollywood s activist producers and major auteurs such as Hitchcock and Kubrick as they worked with screenwriters to formulate their audio visual goals The second part offers case studies of *Devil in a Blue Dress* and *The Sweet Hereafter* for which the directors wrote their own adapted screenplays Considering the variety of writer director working relationships that are possible Part III focuses on adaptations that alter genre time and place and Part IV investigates adaptations that alter stories of romance sexuality and ethnicity

*One Shot Hitchcock* Luke Robinson, Melanie Robson, 2024 In recent years the enduring appeal of Alfred Hitchcock to film studies has been evidenced by the proliferation of innovative approaches to the director s work Adding to this pattern of innovation the edited collection *One Shot Hitchcock A Contemporary Approach to the Screen* utilizes formal analysis to interrogate key single shots from across Alfred Hitchcock s long career This collection reveals the value of analyzing the single shot within this small cinematic unit is a code that unlocks a series of revelations about cinema as an artistic practice and a theoretical study Each chapter examines one shot from a single film beginning with *The Lodger* 1927 and ending with *Frenzy* 1972 If Hitchcock is known as a director of suspense films and films about murder the shots discussed in *One Shot Hitchcock* are his crime scenes These are the shots that resist being forgotten that repeatedly demand to be investigated in which Hitchcock s influence on aesthetics and culture is at its most acute Each chapter uses a different lens of film analysis transnationalism gender and sexuality performance history affect intermediality remake studies philosophy and film form are all used to interrogate single shots In these essays the single shot from Hitchcock s film not only illustrates the approach in question but also demonstrates how the single shot encourages us to rethink our approaches to the screen By reinvigorating a close formal mode of analysis *One Shot Hitchcock* asks readers to think differently about film offering a renewed assessment of Hitchcock s oeuvre in the process
