Managed Care Stuart H. Altman, Uwe E. Reinhardt, David Shactman, 1999-06-25 What should be government's role in a market oriented health care system? What is the appropriate amount of regulation? Who should regulate: states, federal government, or market forces? What role do the courts play in this regulation? Are there existing models that might guide leaders in designing an effective regulatory structure? Welcome to the great managed care debate! In *Regulating Managed Care*, twenty six of the nation's leading health policy experts give health care administrators, clinicians, and policy makers insight into the issues behind this critical exchange and provide leaders with a road map to assess the policy options available to protect the quality of our health care delivery system. This collection of papers from an extraordinary group of authors makes a valuable contribution to the ongoing policy debate and will be of interest to anyone concerned with the future of our health care system. Charles A. Sanders, retired chairman and CEO of Glaxo Inc. and former general director of Massachusetts General Hospital.
