Management Consultancy And Banking In An Era Of Globalization:

Management Consultancy and Banking in an Era of Globalization A. Jones, 2003-11-03 Management consultancy and investment banking have been held up as industries at the forefront of contemporary globalization Using an interdisciplinary approach ranging across economics economic geography sociology and management studies Andrew Jones analyzes the nature of globalization within business service transnational corporations in these sectors Using qualitative research with leading business managers he focuses on the social and cultural nature of doing global service business in an era of increasing integration of the world economy Management Consultancy Andrew Sturdy, 2009-03-26 Management consultants are typically seen as key mediators in the flow of management ideas And yet little is known about exactly what happens when they work together with clients behind closed doors in consulting projects Do they really innovate or simply legitimate existing knowledge This book presents research from a three year long fly on the wall study of consulting projects and challenges our taken for granted view of consultancy It draws on and integrates theories of knowledge and social boundaries to reveal a picture of complex and shifting insider outsider relationships Here the outsider or expert status of consultants in relation to their clients cannot be assumed in their day to day project interactions Different actors roles and types of knowledge are involved in an interactive and dynamic process where various boundaries are constructed reinforced negotiated and transformed The chapters selectively explore these dynamics revealing the importance of boundary complexity the role of humour and challenge in often tense relationships and the importance of shared knowledge domains such as sector knowledge This in depth analysis of inter organizational project teams also covers a wide range of consultancy contexts drawing on cases studies which include a US based strategy firm and a multinational client the public and private sectors a sole practitioner consultant IT implementation in financial services The book is important for all those with an interest in management consultancy project working and management knowledge as well as in innovation change inter organisational relations boundaries and professional services. The authors include some of the leading research experts on management consultancy as well as a former management consultant and current expert in management learning The Oxford Handbook of Management Consulting Matthias Kipping, Timothy Clark, 2012-03-29 Management consultants of various kinds play an important role in the world of business and within other types of organization The Oxford Handbook on Management Consulting is a comprehensive overview of thinking and research on management consultancy with contributions from leading international scholars The first section provides an account of the historical developments in management consulting research and how current thinking has evolved from prior work The second section focuses on disciplinary and theoretical perspectives their diversities areas of synergy and parallel concerns The following sections examine consulting as a knowledge business consultants and management fashion and the relationship between management consultants and their clients The Handbook concludes with an assessment of areas of future research and debate By bringing

together a wide range of research and thinking on management consulting across different disciplines sub disciplines and conceptual approaches the Handbook provides a comprehensive understanding of both current thinking and future directions Management Consultancy Insights and Real Consultancy Projects Graham Manville, Olga Matthias, Julian Campbell, 2017-10-05 The field of management consultancy research has grown rapidly in recent years Fuelled by the drivers of complexity and uncertainty a growing number of organizations both profit and third sector alike are looking at management consultancy to assist in their aims for development and change Consultants have become a common feature in organizational change initiatives involved in both providing advice and in implementing ideas and solutions However despite this growing recognition and influence management consultancy is still often misunderstood or criticized for its lack of theoretical underpinning The book seeks to address these issues by offering applied theoretical insights from academics that both teach and practice management consultancy Written by recognized experts in their field the contributors combine original insights with authoritative analysis Uniquely this book identifies emerging themes with critical discourse and provides rich empirical case study evidence to show the reader how management consultancy projects are implemented Real world international consultancy projects are featured as written up cases featuring organizations from multi national corporations to the public sector Written for graduate level managers or those who have practical leadership experience this book will enable readers to apply management consultancy models beyond a classroom context Handbook of Research on Entrepreneurship in Professional Services Markus Reihlen, Andreas Werr, 2012-01-01 Professional service firms are critical agents of contemporary economies and understanding them has become a central focus of recent scholarship This very timely and well organized Handbook brings together several leading scholars who explore how we might think and theorize about professional service firms and their entrepreneurial behaviours The Handbook will become a key source for the growing community of researchers in this area Royston Greenwood University of Alberta Canada For too long both researchers and practitioners have presumed that professional service firms follow the status quo when they should better understand how these professionals set the rules for globalization This Handbook reminds us that professionals are as much the shock troops of capitalism as the multinational corporations that they serve As this Handbook shows the leading firms successfully compete with each other by fostering entrepreneurship and innovation in order to service an institutional system that undergirds the international economy Christopher McKenna University of Oxford UK Professional services are increasingly seen as an important foundation for future economic growth and prosperity Yet research on innovative and entrepreneurial processes in professional services has been surprisingly scarce This Handbook provides a collection of original contributions from leading scholars outlining the current stock of knowledge in the area as well as providing directions for further research The expert contributors discuss entrepreneurship and innovation from a number of different perspectives including the entrepreneurial professional team the entrepreneurial firm and the institutional environment The

first part of the book looks at the challenges of entrepreneurship specific to the professional service firm while the second explores the creation and exploitation of entrepreneurial opportunities in the professional service team Part III turns to the organization and Part IV to the management and growth of the entrepreneurial professional service firm The final part discusses the interplay between professions firms and the institutional environment Researchers scholars and PhD students in the areas of entrepreneurship and professional service firms along with advanced students of management will find this The Handbook of Service Industries J. R. Bryson, P. W. Daniels, 2007-01-01 It contains an impressive volume of great value array of important and useful material that should be familiar to anyone interested in economic growth and change the potential value to be gained from these collected works is great James E Pratt Growth and Change Service activities are now acknowledged as key players in economic development societal change and public policy worldwide This exciting Handbook not only contributes to ongoing conceptual debates about the nature of service led economies and societies it also pushes back the frontiers of current critical thinking about the role of service activities in urban and regional development and the important research agendas that remain to be addressed Drawing on both theory and case studies the contributors are international experts who have written original and stimulating chapters from a number of different disciplinary perspectives Each chapter seeks to raise awareness of and to provoke debates about the opportunities and challenges presented by the shift to service employment Providing a truly interdisciplinary analysis The Handbook of Service Industries will be invaluable to scholars specializing in services research as well as students and researchers in the areas of economics geography business and management sociology public policy and planning The policy making community will also find the Handbook a relevant and useful resource Handbook of Service Business John R. Bryson, Peter W. Daniels, 2015-04-30 Service business accounts for more than 75 per cent of the wealth and employment created in most developed market economies The management and economics of service business is based around selling expertise knowledge and experiences This Handbook The Globalization of Advertising James R. Faulconbridge, Peter Taylor, Corinne Nativel, Jonathan CO Beaverstock, 2010-12-09 The Globalization of Advertising draws upon previously unpublished research to unpack the contemporary structure spatial organization and city geographies of global advertising agencies The book demonstrates how teamwork in contemporary advertising agencies intra organizational power relations and the distribution of organizational capabilities all define how global agencies operate as transnationally integrated organizations This in turn allows understanding to be developed of the role of the offices of global agencies located in the three case study cities Detroit Los Angeles and New York The role of these three cities as preeminent markets for advertising in the USA is shown to have changed radically over recent years experiencing both growth and decline in employment as a result of their position in global networks of advertising work networks that operate in the context of a changing US economy and the rise of new and emerging centres of advertising in Asia and South America **Spaces of International Economy and Management** R. W Baber, 2011-12-13 A structural overview of the new field of management geography including globalization embeddedness of MNEs networking hybridization regional economies technology acculturation The Routledge Companion to the Makers of internationalization IHRM and implications for management and government Global Business Teresa da Silva Lopes, Christina Lubinski, Heidi J.S. Tworek, 2019-07-09 The Routledge Companion to the Makers of Global Business draws together a wide array of state of the art research on multinational enterprises The volume aims to deepen our historical understanding of how firms and entrepreneurs contributed to transformative processes of globalization This book explores how global business facilitated the mechanisms of cross border interactions that affected individuals organizations industries national economies and international relations The 37 chapters span the Middle Ages to the present day analyzing the emergence of institutions and actors alongside key contextual factors for global business development Contributors examine business as a central actor in globalization covering myriad entrepreneurs organizational forms and key industrial sectors Taking a historical view the chapters highlight the intertwined and evolving nature of economic political social technological and environmental patterns and relationships They explore dynamic change as well as lasting continuities both of which often only become visible and can only be fully understood when analyzed in the long run With dedicated chapters on challenges such as political risk sustainability and economic growth this prestigious collection provides a one stop shop for a key business discipline Chapter 31 of this book is freely available as a downloadable Open Access PDF at http www taylorfrancis com under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Knowledge-Based Services, Internationalization and Regional Development Peter Daniels, 2017-05-15 The acquisition and management of information is central to the operation and marketing of many service providing firms and other organizations Their varied knowledge requirements influence approaches to organizational structure relationships to other organizations the location of operations and entry into new markets In this book an international and interdisciplinary team of leading scholars examines the attributes of knowledge acquisition and diffusion within and across service providing organizations Using a variety of case examples they pay particular attention to the processes of internationalization and the ways in which service providing organizations affect regional economic development Knowledge Intensive Business Services Marcela Miozzo, Damian Grimshaw, 2006-01-01 The book provides convincing findings against the hypothesis of KIBS as a factor of cognitive convergence or loss of diversity within our economies On the contrary KIBS are active agents of divergence and there is no universal pattern of the nature and the evolution of KIBS but national varieties It also shows that in order to well understand the inter organizational collaboration between KIBS and their clients and more generally KIBS dynamics and their performance transaction cost economies and agent theory should be complemented by other perspectives such as knowledge based approaches network theories modularity theories etc This book which is strongly oriented towards both policy and theoretical questions is a valuable

addition to a body of literature which is still too scarce No doubt that it will stimulate further research in this field It is undoubtedly a high level knowledge intensive service provision about knowledge intensive business services Fa z Gallouj University of Lille France This book focuses on the development of Knowledge Intensive Business Services KIBS and the associated market characteristics and organisational forms It brings together reputed scholars from a mix of disciplines to explore the nature and evolution of a range of Knowledge Intensive Business Services Through an examination of KIBS sectors such as computer services management consultancy and R D services the contributions in this book argue that the evolution of KIBS is strongly associated with new inter organizational forms and that different country institutions shape the characteristics of these organisational forms The book provides a strong contribution to theory and empirical evidence on fast growing KIBS and their implications for innovation The book will be of interest to final year undergraduates and postgraduate students and scholars in the field of innovation studies organisation studies and comparative business systems across Europe The Corporation Grietie Baars, Andre Spicer, 2017-03-24 The corporation has become an increasingly dominant force in contemporary society However comprehensive in depth analysis of the concept of the corporation is often restricted or limited to one disciplinary approach This handbook brings together the cutting edge scholarship expertise and insight of leading scholars in a wide range of disciplines notably management studies law history political science anthropology sociology and criminology using a critical approach to dissect and understand the corporation Ten chapters provide overviews of the state of play of critical scholarship on the corporation in each of these disciplines Further contributors tackle current hot topics such as corporate social responsibility corporate crime global value chains financialization and the interaction between corporations and communities Finally they consider resistance and alternatives to the corporation With its interdisciplinary approach this book is an invaluable resource for all readers studying the past International Business Travel in the Global Economy Ben Derudder, Frank present and future of the corporation Witlox, 2016-05-23 Business travel has become indispensable to the global economy not only due to its necessity in the maintaining of corporate networks but also because of the associated economies that cater to the daily requirements of the business traveller Underlying these developments are concerns over the environmental impact of increasing air travel which are likely to generate new challenges for the future of business travel From a team of international experts comes this analysis of the role nature and effects of modern business travel Issues addressed include the relationships between airlines and business travellers the role of mobility in business and the opportunities and challenges created by mobile workforces The study combines theoretical advances with comprehensive analysis and will provoke debate across the social sciences on the nature organization and space of work in the twenty first century The Relational Economy Harald Bathelt, Johannes Glückler, 2011-06-23 How are firms networks of firms and production systems organized and how does this organization vary from place to place This book synthesizes theories from across the social sciences with empirical research and case studies in order to answer this question The Economic Geography of the UK Neil Coe, Andrew Jones, 2010-08-24 With the UK still facing the repercussions of the 2007 economic downturn Coe and Jones text is a timely engaging discussion of the key issues facing the UK economy from a purely geographical perspective written by some of the leading academics in the field With pedagogical features to facilitate learning including further reading and chapter aims the text explores the complex connections that constitute the UK economy including the city and finance the uneven development of the UK the UK economy s links to the European Union and its wider ties to the global economy Written for geography students studying modules on economic geography and the human geography of the UK the text is a vibrantly written easy to understand analysis of the current and future challenges that face the contemporary UK economy Includes a preface by Doreen Massey

Services and Economic Development in the Asia-Pacific P.W. Daniels, J.W. Harrington, 2016-04-01 Until the 1990s industrialization was the dominant development paradigm for the Asia Pacific region Since then advanced services finance business or producer services information and creative services have become deeply embedded in the processes of economic growth and change in the region This rapid tertiary expansion is fundamentally restructuring national and regional economies and urban form in line with the introduction of advanced production systems national modernization programmes and the globalization strategies of governments Services are being actively deployed as instruments of metropolitan reconfiguration and land use change This book explores various aspects of the relationship between service industries and economic development in Japan South Korea China Taiwan Singapore India Australia and New Zealand It provides new sector oriented and regional and national perspectives on services and development **Knowledge-Intensive Business** Services Mark Freel, 2016-04-22 Over the last decade there has been an increasing amount of research on knowledge intensive business services KIBS and innovation This book brings together current thinking on this subject from geographic and territorial perspectives Researchers from across Europe and North America present contributions from a wide range of disciplinary approaches including management studies innovation studies and geography They explore areas such as innovation related cooperation between KIBS firms and their industrial partners how KIBS firms mediate business knowledge and the impact that KIBS make in local regional and international contexts. The book offers a timely exploration of the role played by the geographic and institutional environment in the processes that link KIBS innovation and territory across Who Needs Migrant Workers? Martin Ruhs, Bridget Anderson, 2012-05-17 Are migrant workers needed different contexts to do the jobs that locals will not do or are they simply a more exploitable labour force Do they have a better work ethic or are they less able to complain Is migrant labour the solution to skills shortages or actually part of the problem This book provides a comprehensive framework for analysing the demand for migrant workers in high income countries It demonstrates how a wide range of government policies often unrelated to migration contribute to creating a growing demand for migrant labour This demand can persist even during economic downturns The book includes quantitative and qualitative

analyses of the changing role of migrants in the UK economy The empirical chapters include in depth examinations of the nature of staff shortages and the use of migrant workers in six sectors health social care hospitality food production construction and financial services The book s conceptual framework and empirical findings are of importance to academic and policy debates about labour immigration in all high income countries The final chapter presents a comparative analysis of research and policy approaches to assessing labour shortages in the UK and the US It examines the potential lessons of the UK s Migration Advisory Committee MAC for current debates about labour shortages and immigration reform in the US The book will be of significant interest to policy makers stakeholders academics and students Sticky Power Daniel Haberly, Dariusz Wójcik, 2022 This volume investigates the durable nature of financial institutions from the Middle Ages to the present day and argues that reform should take place through innovation in institutional design rather than regulation
