Understanding Crime Prevention Tim Prenzler, 2017-06-20 Crime prevention benefits everyone including would-be criminals saved from the negative consequences of offending. Yet much of today's policy on preventing crime is driven by political ideology and anecdotal evidence with insufficient planning and evaluation. Improving the practice of crime prevention is vital to ensure communities are safe and productive for all who live in them. However, crime is complex; the causes of crime are complex and consequently diverse methods are required to make the very large reductions in offending urgently needed around the world. This book contributes to improved practice in crime prevention primarily through the lessons from successful projects. It provides an overview of current research in the field and an exposition of some of the best case studies from the past including in the areas of property crime, fraud, violence and disorder which demonstrate large-scale successes in prevention. The book is a must-read for security practitioners, crime prevention and community safety officers, police, research and policy officers, politicians and students and academics in the field. Featuring an impressive list of contributors, *Understanding Crime Prevention* covers a wide spectrum of topics and approaches designed to address crime problems from multiple angles. These include standards in crime prevention, policing, deterrence and incapacitation, offender management and rehabilitation, developmental interventions, community-based prevention, situational crime prevention, crime prevention through environmental design, security management, physical security and people management and the security industry.

Case Management for Mentally Ill Patients Harris, 1993-04-01 Case Management: what is it and how does it fit in the system of mental health care for severely mentally ill patients? Four popular case management systems, each emerging from a distinct theory of human growth and development, answer these long-debated questions. *Case Management for Mentally Ill Patients* will prove highly useful to mental health students and practitioners, university educators and professionals providing hands-on help in obtaining a wide range of services including insurance, housing, rehabilitation, general medical, psychiatric care, legal services and entitlements and employment. Maxine Harris and Helen Bergman are co-founders and co-directors of Community Connections Inc. in Washington DC.
