## Solutions to exercises in the book

### Chapter 2: Basic cost accounting, cost classification, behaviour and estimation

- 2.1
- (a) Differential
  - (b) Sunk
  - (c) Opportunity
  - (d) Semi-variable
  - (e) Fixed
  - (f) Controllable
  - (g) Variable
  - (h) Relevant

- 2.2 (a) (i) High-low method

Variable cost per unit

= Difference in cost ÷ Difference in units

= (R80 – R40) ÷ (7 – 1)

= R6.67

Fixed cost = Total cost – Variable cost =

R80 – (R6.67 × 7) = R33.31

Total cost for August

$y = a + bx$

$y = 33.31 + 6.67(10)$

$y = R100.01$

*The Routledge Companion to Accounting Education* Richard M.S. Wilson, 2014-04-29 Many enquiries into the state of accounting education training undertaken in several countries over the past 40 years have warned that it must change if it is to be made more relevant to students, to the accounting profession, and to stakeholders in the wider community. This book's overriding aim is to provide a comprehensive and authoritative source of reference which defines the domain of accounting education training and which provides a critical overview of the state of this domain, including emerging and cutting edge issues, as a foundation for facilitating improved accounting education training, scholarship, and research in order to enhance the educational base of accounting practice. *The Routledge Companion to Accounting Education* highlights the key drivers of change, whether in the field of practice on the one hand (e.g. increased regulation, globalisation, risk, and complexity) or from developments in the academy on the other (e.g. pressures to embed technology within the classroom or to meet accreditation criteria). Thirty chapters, written by leading scholars from around the world, are grouped into seven themed sections which focus on different facets of their respective themes, including student curriculum, pedagogic, and assessment considerations.

*Handbook of Management Accounting Research* Christopher S. Chapman, Anthony G. Hopwood, Michael D. Shields, 2011-09-14 Volume two of the *Handbooks of Management Accounting Research* consists of two groups of chapters. The first draws together research that has focussed on particular management accounting practices. The second synthesises contributions to the literature that have been focussed within particular organisational contexts. Volume two concludes with a review of research on how management accounting practice and research varies around the world. Special pricing available if purchased as a set with Volume 1. Documents the scholarly management accounting literature. Publishing both in print and online through Science Direct International in scope.

***The Routledge Handbook of Behavioural Accounting Research*** Theresa Libby, Linda Thorne, 2025-04-29 *The Routledge Handbook of Behavioural Accounting Research* covers a full range of theoretical, methodological, and statistical approaches relied upon by behavioural accounting researchers, giving the reader a good grounding in both theoretical perspectives and practical applications. Behavioural research is broadly defined as

research focused at the individual or small group level drawing mainly on theories from psychology It is well established in the social sciences and has flourished in the field of accounting in recent decades This updated edition maintains the structure of the original handbook and includes all the original chapters which have been revised to reflect the current and evolving emphasis on the theories and tools employed in behavioural research and applied to the research in the accounting domain In addition to the updated original chapters eight new chapters have been included reflecting the expansion of the topics theories and methodologies and presenting developmental advice for behavioural accounting researchers The new topic and theory chapters include chapters outlining our progress in research on the accounting for sustainability language effects in financial disclosures advances in policy related research in financial accounting the impact of algorithms and artificial intelligence and the role of data analytics and data visualization on decision making in accounting and auditing Two additional method chapters include a primer on Hayes PROCESS models in mediation and moderation as well as a new chapter outlining best practices in the design and implementation of experiential questionnaires Finally a chapter has been added providing guidance and advice on responding to reviewers comments to complement the first edition chapter on preparing a review This book is a vital introduction for advanced doctoral students in behavioural accounting research as well as a valuable resource for established behavioural accounting researchers providing a comprehensive guide to the development and implementation of a behavioural accounting research project
