Environmental Pollution Control:An Introduction to Principles and Practice of Administration J. McLoughlin,E. G. Bellinger,Edward G. Bellinger,1993-03-16 This work is written for those who seek effective ways of controlling environmental

pollution Indeed many developing and East European states look to the experience of the United States and Western Europe This book does not however concentrate on any one system of control or control laws but succeeds in introducing the exact nature of pollution problems and the variety of ways in which effective control and management have been achieved Rather than advocate a ready made system lessons are drawn for example from the U K U S A Sweden Denmark France Germany and New Zealand and instructive legislative samples are reproduced the place of international obligations being clearly marked out The skilful and wide ranging comparative approach adopted renders this handbook yet more valuable based as it is on the premise that a control system is better if it is built on existing institutional and legal structures The book will interest all who advise on environmental matters on a daily basis particularly senior administrators policy makers institutions legal advisers and researchers
