Managing Change in the Public Services Mike Wallace, Michael Fertig, Eugene Schneller, 2009-02-09 This book explores the management of change to improve public service effectiveness It breaks new ground in addressing why public service change is becoming increasingly complex to manage how people cope with this new complexity what

implications arise for improving policy and practice and which avenues for further research and theory building look particularly promising. The contributors are all leading researchers from the USA, Canada and the UK. Together they provide a synthesis of state of the art thinking on the complex change process in Anglo American contexts. Policy making for public service reform that generates managerial complexity and practice in service organizations to improve provision. Special reference is made to education and health, the largest and most complex of the public services. The analysis has wider relevance for other public services and national contexts. *Managing Change in the Public Services* is essential reading for all concerned with public service improvement: leaders and managers in service organizations, administrators, trainers, advisers and consultants who support the management of change, policy makers and public servants and advanced course students and academics. The book also offers general insights for the theory and practice of managing organizational and systemic change.

Public Health and Primary Care Alison Hill, Siân Griffiths, Stephen Gillam, 2007-07-05. This book is written for people working in primary care who want to understand more

about how they contribute to improving the health and health care of the populations that they serve and for people working in public health who want to understand the essential contribution of primary care to improving health It sets out the nature purpose and relevance of public health approaches to primary care practitioners and primary care organisations Primary care teams have had a long established role in public health providing preventive services to populations through the registered population in general practice This model of a registered practice population has withstood multiple reconfigurations and reorganisations within the NHS and is the envy of many countries trying to create a public health system with primary care at its heart There are clear differences in approach with the inevitable conflicts between the rights of the individual set against the responsibility to ensure services are delivered fairly and equitably to whole populations This book explores this dilemma showing how people working in primary care can cross the divide to become part of the public health system and in doing so are well placed to make a difference to the health of their populations
