Volten, 2019-03-13 Dr Volten analyses the foreign policy making process in the Soviet Union particularly in connection with the Brezhnev's Peace programme in the 1970s which was supposed to normalise political economic relations with the West and curb military rivalry Military Government and the Movement Toward Democracy in South America Howard Handelman, Thomas Griffin Sanders, 1981 Sophisticated investigations of governmental transition in Brazil Chile Uruguay Peru and Ecuador Discusses such issues as the undercurrents of popular discontent and the recent progress toward increased civilian political participation **Bibliography On World Conflict And Peace** Elise Boulding, 2019-04-24 This book presents more than 1 000 entries organized in twenty six major categories in the fields of conflict and peace studies It focuses on global systems and covers the structures and processes of conflict and peacemaking as they apply at every level from interpersonal to international The Routledge International Handbook of C. Wright Mills Studies Jon Frauley, 2021-09-22 The Routledge International Handbook of C Wright Mills Studies brings together leading scholars of the work of radical sociologist C Wright Mills to showcase its impact across the social sciences Showing how Mills thought can be taken up and in some cases sympathetically reformulated to tackle problems of power and politics it presents an authoritative state of the art overview of Mills groundbreaking ideas and his far reaching theoretical and methodological impact Crucially the volume also illustrates the value of thinking with Mills in addressing the complexities of contemporary capitalist democracies As such it will appeal to scholars of sociology anthropology organization studies peace and conflict studies criminology politics and public administration **Proposals to Establish a U.S. Academy of Peace** United States. Terrorism Donald J. Hanle,2006 Part of the problem of dealing with terrorism is in its definition it is often depicted as something new and totally alien a phantom enemy that cannot be understood But by employing a sophisticated analysis soundly based on an encyclopedic knowledge of military history Donald J Hanle shows that three major forms of terrorism Military Revolutionary and State Sponsored qualify as the newest forms of war The author s in depth investigation reveals that these kinds of terrorists operate in the same basic manner as military forces employed in traditional warfare and have the same basic capabilities and weaknesses He argues convincingly that countermeasures against these types of terrorist organizations should be based upon classical principles of war and combat and suggests countervailing strategies **Terrorism The Newest Face of Warfare** is a starting point for a sensible and coherent counterterrorism strategy one that enlists a valuable but heretofore neglected Western arsenal the study of military history in the battle against terrorism **Sociology and Its Publics** Terence C. Halliday,Morris Janowitz,1992-10-15 Sociology faces troubling developments as it enters its second century in the United States A loss of theoretical coherence and a sense of disciplinary fragmentation a decline in the quality of its recruits the cooptation of its clients a muted public voice and sinking prestige in governmental circles these are only a few of the trends signalling a need for renewed debate about how sociology is organized In this volume some of the most authoritative voices in the field confront these conditions offering a variety of perspectives as they challenge sociologists to self examination *British Propaganda in the Twentieth Century* Philip M. Taylor,2019-08-08 Philip M Taylor analyses the period from World War One to the present day and demonstrates how Britain has established a model for the dissemination of democratic propaganda world wide His writing covers films radio television and the press **Social Change and Politics** Morris Janowitz,2017-07-05 This classic study deals with social control in advanced industrial society especially the United States and particularly the half century after World War I The United States is representative of Western advanced industrial nations that have been faced with marked strain in their political institutions These nation states have been experiencing a decline in popular confidence and distrust of the political process an absence of decisive legislative majorities and an increased inability to govern effectively that is to balance and to contain competing interest group demands and resolve political conflicts Janowitz uses the sociological idea of social control to explore the sources of these political dilemmas Social control does not imply coercion or the repression of the individual by societal institutions Social control is rather the face of coercive control It refers to the capacity of a social group including a whole society to regulate itself Self regulation implies a set of higher moral principles beyond those of self interest Since the end of World War II the expanded scope of empirical research has profoundly transformed the sociological discipline The repeated efforts to achieve a theoretical reformulation have left a positive residue but there have been no new conceptual breakthroughs that

are compelling This book is a concerted and detailed effort organize and to make sense out of the vastly increased body of empirical research

The Last Half-Century Morris Janowitz,1978 Janowitz examines the societal changes that have weakened the electoral system and contributed to the further decline of social control and encourages the development of new forms of citizen participation
