Millennium Tools For The Coming Changes:

Millennium Lyssa Royal, 1997 In this instructional work world renown channel seminar leader sacred site guide and author Lyssa Royal explores the global shift in consciousness the inner workings of the human psyche and the nature of reality in a way that inspires readers to bring more happiness fulfillment and self empowerment into their lives **Prism of Lyra** Keith Priest, Lyssa Royal, 2011-03-01 The Prism of Lyra is an exploration of Human Galactic Heritage The Prism of Lyra is a book that examines the idea of creation in a different light In contrast to the notion that humans are the result of creation it explores the idea that the collective humanoid consciousness or soul created our universe for specific purposes What are those purposes Who is involved These questions and many more are addressed resulting in startling possibilities The Prism of Lyra then traces various off planet races Lyra Vega the Pleiades Orion Zeta Reticuli and more through their own evolution and ties them into the developing Earth Highlighted is the realization of our galactic interconnectedness and our shared desire to return home Explore with us the passage through The Prism of Lyra **Preparing for Contact** Lyssa Royal, Keith Priest, 2011-10-01 Extraterrestrial contact is happening now We may not remember it clearly We may think it is only a dream We may ignore the signs of contact because we do not understand them And most of all we may simply be too frightened to fully acknowledge its presence The contact experience is intricately tied to the nature of human consciousness When we as a species evolve so will the nature of our contact experiences Part 1 was first published in 1994 This new edition includes part 2 and is a groundbreaking book with all new information that explores Lyssa s contact research around the world from 1994 to present day It is a combination of narrative channeled material from renown channel Lyssa Royal and personal accounts from teams of contact pioneers those who research ET contact in real time and reach out to initiate contact through their work with specially trained contact teams An inside look at the ET contact experience is given including what the human consciousness experiences during contact and how our perceptions of reality change as we meet with beings from other worlds The authors present a breathtaking look at the contact phenomenon and its connection to the evolution of the human species **Galactic Heritage Cards** Lyssa Royal Holt, 2013-04-02 The Galactic Heritage Cards were first introduced in Japan where hundreds of Lyssa s students have since used them with profound results USING THE CARDS The overall concept of the cards is to explore the journey from unity to fragmentation polarity and back to reintegration Since each of us is part of the same one consciousness this is a holographic journey that unifies us all The card system uses the holographic concept that we are experiencing both unity and separation simultaneously The components of the cards explore this journey in a variety of ways including SPECIES or STAR SYSTEM Twenty one different species or star systems are represented in the four suits or time streams of cards to symbolize the main archetypal groups who have influenced the development of our galactic family THEME Each card has a theme or lesson that is connected to the civilization it depicts Contemplative text and deeper commentary are presented for each card to help users understand how to apply this wisdom in their current lives

ARTWORK The architect of these cards the multidimensional consciousness Germane channeled through Lyssa also assisted Hong Kong artist David Cow in the channeling of the images Contemplating the artwork allows more information and energy to be transmitted that goes beyond the text for each card The art works deeply with the subconscious and adds a powerful dimension to the user's inner work with the cards In addition to the individual card art an underlying image spans all the cards when they're laid out on a grid with 18 cards per row This image represents our journey back to integration and thus each card carries an embedded energy of unity even within the uniqueness and separate journey of each card When the final card was channeled the total number was 108 a sacred number in many traditions that reflects the idea of wholeness and completion GETTING STARTED In the accompanying booklet we offer more information the text and commentary for each card and several recommended spreads to help you get started Soul Companions Karen Sawyer, 2012-11-01 You are never alone whatever your nationality religion or belief you have a spirit guide to assist your journey through life A spirit guide doesn't have to be dead everything that lives has a spirit that could potentially be a spiritual guide including pets and animals plants and elemental and otherworldly spirit allies We can also be our own guides and be guides to other people This collection of spirit guide encounters from around the world will inspire you in your own quest for spirit guide contact with practical how-to advice Learn how to recognise the signs and talk with the spirit beings guiding your life This diverse collection of over 40 experiences united in one book will inspire you on your spiritual path to know that you are not alone but that we are all one Ecological Restoration and Environmental Change Stuart K. Allison, 2012-07-26 What is a natural habitat Who can define what is natural when species and ecosystems constantly change over time with or without human intervention When a polluted river or degraded landscape is restored from its damaged state what is the appropriate outcome With climate change now threatening greater disruption to the stability of ecosystems how should restoration ecologists respond Ecological Restoration and Environmental Change addresses and challenges some of these issues which question the core values of the science and practice of restoration ecology It analyzes the paradox arising from the desire to produce ecological restorations that fit within an historical ecological context produce positive environmental benefits and also result in landscapes with social meaning Traditionally restorationists often felt that by producing restorations that matched historic ecosystems they were following nature's plans and human agency played only a small part in restoration But the author shows that in reality the process of restoration has always been defined by human choices He examines the development of restoration practice especially in North America Europe and Australia in order to describe different models of restoration with respect to balancing ecological benefit and cultural value He develops ways to balance more actively these differing areas of concern while planning restorations The book debates in detail how coming global climate change and the development of novel ecosystems will force us to ask new questions about what we mean by good ecological restoration When the environment is constantly shifting restoration to maintain biodiversity local species and ecosystem functions

becomes even more challenging It is likely that in the future ecological restoration will become a never ending continuously evolving process

Forthcoming Books Rose Arny,1999 Facing Global Environmental Change Hans Günter Brauch,Navnita Chadha Behera,Patricia Kameri-Mbote,John Grin,Úrsula Oswald Spring,Béchir Chourou,Czesław Mesjasz,Heinz Krummenacher,2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth sessment Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who has done a great deal to create awareness on c mate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world

Climate Change, Human Security and Violent Conflict Jürgen Scheffran,Michael Brzoska,Hans Günter Brauch,Peter Michael Link,Janpeter Schilling,2012-05-26 Severe droughts damaging floods and mass migration Climate change is becoming a focal point for security and conflict research and a challenge for the world s governance structures But how severe are the security risks and conflict potentials of climate change Could global warming trigger a sequence of events leading to economic decline social unrest and political instability What are the causal relationships between resource scarcity and violent conflict This book brings together international experts to explore these questions using in depth case studies from around the world Furthermore the authors discuss strategies institutions and cooperative approaches to stabilize the climate society interaction
