The Meaning of Prayer Harry Emerson Fosdick, 1919 **Praying the Hours** Suzanne Guthrie, 2000-01-25 Praying the Hours offers us a contemporary way to practice the ancient tradition of hallowing time throughout the day by marking the hours with prayer and thanksgiving **The Life of Prayer in a World of Science** Richard Ostrander, 2000 By the end of the 19th century the ascendancy of a naturalistic worldview had made it increasingly difficult for many educated Christians to believe in a God who intervened in the natural world At the same time many in the emerging middle class culture saw themselves as too busy to practice the rigorous devotions of their ancestors In this book Rick Ostrander explores the attempts of American Protestants to articulate a convincing and satisfying ethic of prayer in these changing circumstances Ostrander shows that in response to the assault on petitionary prayer by naturalistic scientists American Evangelicals articulated a highly supernatural ethic of prayer and co-opted the scientific method to defend their stance recording and cataloging numerous answers to prayer as empirical proof of prayer's efficacy Liberal Protestants on the other hand with their desire to adapt to modern thought gradually abandoned traditional belief in petitionary prayer The debate about the efficacy of petitionary prayer and other alternative therapies in mental and physical healing has taken on new vigor today this timely and engagingly written work not only chronicles the history of that debate but serves to illuminate the issues that are at stake *What Are We Doing When We Pray?* Vincent Brümmer, 2017-05-15 Vincent Brümmer's classic book on prayer from 1984 provides a comprehensive philosophical analysis of central issues regarding the nature and practice of prayer What do we do when we ask things of other people when we thank them or praise them when we express penitence for what we have done to them and ask their forgiveness And how does doing these things in relation to God differ from when we do them in relation to other people And what does this entail for the existence and nature of the God to whom we pray This new edition has been substantially revised and updated Three new chapters have been added which develop in detail a hint by G K Chesterton that faith is not a thing like a theory but a thing like a love affair Since prayer is the expression of this love affair it is also the clue to understanding the nature of faith These chapters contribute significantly to the current academic interest in spirituality by showing how Brümmer's analysis of prayer helps us to understand the nature of spirituality of faith and religious belief and of theology Spirituality is not aimed at achieving religious experiences or mystical knowledge about God it is primarily aimed at attaining the religious form of life and at coming to see the world in the light of faith Religious belief is not merely a cognitive enterprise like science it cannot be divorced from spirituality and the life of faith and is therefore fundamentally existential and not merely intellectual Serving as a valuable core text for students this book also

contributes to a number of current debates in theology and philosophy of religion the debates on realism and religious belief on the rationality of faith and the nature of theology on the relation between religious belief and morality on the relation between science and religion and the lively debate among evangelical Christians in America on the openness of God
