Krys Malcolm Belc

Natural Mother:

The Natural Mother of the Child Kryss Malcolm Belc, 2021-06-15 Kryss Malcolm Belc's visual memoir in essays explores how the experience of gestational parenthood conceiving birthing and breastfeeding his son Samson eventually clarified his gender identity Kryss Malcolm Belc has thought a lot about the interplay between parenthood and gender As a nonbinary transmasculine parent giving birth to his son Samson clarified his gender identity And yet when his partner Anna adopted Samson the legal documents listed Belc as the natural mother of the child By considering how the experiences contained under the umbrella of motherhood don't fully align with Belc's own experience *The Natural Mother of the Child* journeys both toward and through common perceptions of what it means to have a body and how that body can influence the perception of a family With this visual memoir in essays Belc has created a new kind of life record one that engages directly with the documentation often thought to constitute a record of one's life childhood photos birth certificates and addresses his deep ambivalence about the before and after so prevalent in trans stories which feels apart from his own experience *The Natural Mother of the Child* is the story of a person moving past societal expectations to take control of his own narrative with prose that delights in the intimate dailiness of family life and explores how much we can ever really know when we enter into parenting

Making modern mothers Rachel Thomson, Mary Jane Kehily, Lucy Hadfield, Sue Sharpe, 2011-06-22 What does motherhood mean today Drawing on interviews with new mothers and intergenerational chains of women in the same family this exciting and timely book documents the transition to motherhood over generations and time Exploring amongst other things the trend to later motherhood and the experience of teenage pregnancy a compelling picture emerges Becoming a mother is not only a profound moment of identity change but also a site of socio-economic difference that shapes women's lives

The Violence of Love Kit W. Myers, 2025-01-28 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more *The Violence of Love* challenges the narrative that adoption is a solely loving act that benefits birth parents adopted individuals and adoptive parents a narrative that is especially pervasive with transracial and transnational adoptions Using interdisciplinary methods of archival legal and discursive analysis Kit W. Myers comparatively examines the adoption of Asian Black and Native American children by White families in the United States He shows how race has been constructed relationally to mark certain homes families and nations as spaces of love freedom and better futures in contrast to others that are not and argues that violence is attached to adoption in complex ways Propelled by different types of love such adoptions attempt to transgress biological racial cultural and national borders established by traditional family ideals Yet they are also linked to structural symbolic and traumatic forms of violence *The Violence of Love* confronts this discomfiting reality and rethinks theories of family to offer more capacious understandings of love kinship and care

Dolgin, 1999-08 *Defining the Family Law Technology and Reproduction in an Uneasy Age* provides a sweeping portrait of the family in American law from the nineteenth century to the present The family today has come to be defined by individuality and choice Pre nuptial agreements non marital cohabitation gay and lesbian marriages have all profoundly altered our ideas about marriage and family In the last few years reproductive technology and surrogacy have accelerated this process of change at a breathtaking rate Once simple questions have taken on a dizzying complexity Who are the real parents of a child What are the relationships and responsibilities between a child the woman who carried it to term and the egg donor Between viable sperm and the wife of a dead donor The courts and the law have been wildly inconsistent and indecisive when grappling with these questions Should these cases be decided in light of laws governing contracts and property Or it is more appropriate to act in the best interests of the child even if that child is unborn or even unconceived No longer merely settling disputes among family members the law is now seeing its own role expand to the point where it is asked to regulate situations unprecedented in human history Janet L Dolgin charts the response of the law to modern reproductive technology both as it transforms our image of the family and is itself transformed by the tide of social forces
