Ringler, 2008-05-03 The cinema isn't a slice of life it's a slice of cake Alfred Hitchcock If you make a popular movie you start to think where have I failed Woody Allen A film is the world in an hour and a half Jean Luc Godard I think you have to be slightly psychopathic to make movies David Cronenberg This compendium contains more than 3 400 quotations from filmmakers and critics discussing their craft About 1 850 film people are included Bunuel Capra Chaplin Disney Fellini Fitzgerald Griffith Kael Kurasawa Pathe Sarris Schwarzenegger Spielberg Waters and Welles among them The quotations are arranged under 31 topics such as acting animation audience budget casting critics costume design directing locations reviews screenwriting special effects and stardom Indexing by filmmakers or critics by film titles and by narrow subjects provides a rich array of points of access Special Effects on the Screen Martin Lefebvre, Marc

Furstenau, 2025-10-01 Since the very first days of cinema audiences have marveled at the special effects imagery presented on movie screens While long relegated to the margins of film studies special effects have recently become the object of a burgeoning field of scholarship With the emergence of a digital cinema and the development of computerized visual effects film theorists and historians have been reconsidering the traditional accounts of cinematic representation recognising the important role of special effects Understood as a constituent part of the cinema special effects are a major technical but also aesthetic component of filmmaking and an important part of the experience for the audience In this volume new directions are charted for the exploration of this indispensable aspect of the cinematic experience Each of the essays in this collection offers new insight into the theoretical and historical study of special effects The contributors address the many aspects of special effects from a variety of perspectives considering them as a conceptual problem recounting the history of specific special effects techniques and analysing notable effects films Hollyworld Aida A. Hozic, 2001 Hollywood is currently one of the largest and most profitable sectors of the U S economy In just a few decades it has transformed itself from a dying

company town into a merchandising emporium of movies games and licensed characters It is quickly moving even further into cyberspace virtual reality and digital imaging Aida Hozic writes of these enormous changes in the film industry from a novel perspective by tracing shifts in spatial organization of film production from the enclosed worlds of old Hollywood studios through globally dispersed location shooting to digital production and distribution Hozic s fascinating tale of latter day capitalism suggests that the physical reorganization of production across the American economy but in Hollywood in particular alters material and conceptual boundaries between work and leisure public and private reality and fantasy Particular economic regimes and forms of spatial organization have specific moral implications and so the story of Hollywood s cultural production is partly a story of censorship and moral surveillance Hozic s account of industrial change in Hollywood and of its attempts at moral control over the production of fantasy is an illuminating confrontation with the peculiar nature of Hollywood s political authority and of its complex power
