Early Modern Literature and England's Long Reformation David Loewenstein, Alison Shell, 2020-12-17

Assessing early modern literature and England's Long Reformation this book challenges the notion that the English Reformation ended in the sixteenth century or even by the seventeenth century Contributions by literary scholars and historians of religion put these two disciplines in critical conversation with each other in order to examine a complex messy and long drawn out process of reformation that continued well beyond the significant political and religious upheavals of the sixteenth century The aim of this conversation is to generate new perspectives on the constant remaking of the Reformation or Reformations as some scholars prefer to characterize the multiple religious upheavals and changes both Catholic and Protestant of the early modern period This interdisciplinary book makes a major contribution to debates about the nature and length of England's Long Reformation Early Modern Literature and England's Long Reformation is essential reading for scholars and students considering the interconnections between literature and religion in the early modern period The chapters in this book were originally published as a special issue of the journal *Reformation*

Generations Alexandra Walsham, 2023 Generations examines how the English Reformation was shaped by the generations that experienced witnessed and participated in it Drawing on a rich array of evidence it highlights the vital part played by families bound by blood and by faith in the religious revolution that stretched across the 16th and 17th centuries

Defoe's Footprints Robert M. Maniquis, Carl Fisher, 2009-01-01 In Defoe's Footprints essays by prominent scholars of eighteenth century literature salute Maximillian E Novak's influence upon the study of Daniel Defoe. Best known today as the author of Robinson Crusoe, Defoe was a prolific writer in the late seventeenth and early eighteenth centuries who wrote novels, essays, pamphlets and poems. Widely extending Novak's perspectives, this volume explores Defoe's place in the English novel and in literary developments of mimesis, realism and popular mythology. The contributors locate Defoe in new ways within the complex symbolism and discourse of a turbulent world of burgeoning capitalism, Protestantism, imperialism and economic speculation. With attention to Defoe's neglected writings as well as to his important works, this volume uncovers his distance from and influence on modern literature, paying tribute to Maximillian E Novak by presenting new ideas about and new readings of Daniel Defoe.

Edinburgh Companion to Sir Walter Scott Fiona Robertson, 2012-09-25 Sir Walter Scott 1771-1832 is widely recognised as one of the central and defining figures in Scottish literature and in European and American Romanticism. Fabled in his own lifetime as the Wizard of the North and as the long anonymous Author of Waverley, he played a unique role in the dissemination of an idea of Scottish culture and history. From his early work as a collector and editor of traditional ballads to the widespread popularity and fame of his poetry and novels and to his important writings on history, economics, folklore and literature, Scott refashioned the literary culture of his day and continues to shape our own. The Edinburgh Companion to Sir Walter Scott, the first collection of its kind devoted to his work, draws on the innovative research and scholarship which have revitalised the study of the whole range of his exceptionally diverse writing in recent years. Chapters written by leading international scholars provide an indispensable guide to his work in different genres and reflect the topics and concerns which are most exciting in Scott scholarship today, including his place in literary and popular culture, his experimentation and originality, his relationship to Romanticism and the revaluation of lesser known works.

The Revolution in Time Tony Claydon, 2020 The Revolution in Time explores the idea that people in Western Europe changed the way they thought about the concept of time over the early modern period by examining reactions to the 1688-1689 revolution in England and how people understood their own place in history and modernity through political and social transformation.
