

The background of the book cover is a painting of a landscape. In the foreground, there is a dense layer of fallen autumn leaves in shades of yellow, orange, and brown. A large, flat, green rock or stone slab lies horizontally across the middle ground. Above the rock, a tree branch with vibrant orange and yellow leaves extends from the top left corner. The overall scene is a peaceful autumn setting.

was his clear recognition that the psyche is a locus not only of individual and personal experiences but also of social collective and even cosmological experiences This important insight on Jung's part both opens broad vistas for psychoanalytic practice and poses potential challenges for the psychoanalytic practitioner attempting to understand and aid the individual client amidst the pressure of intense collective energies especially amidst collective crises Among the themes treated in this volume are principles of non violence environmental activism feminism ecological shifts due to the pandemic the Chingada complex mass shootings industrial farming of animals and death anxiety Jungian Analysis in a World on Fire will be of interest to Jungian psychoanalytic and depth oriented analysts and therapists engaged in how best to work with individual clients in a time of social political and environmental crisis It will also be valuable for scholars interested in understanding the impact of contemporary collective traumas on individual psychology
