China And Southeast Asia: Myths, Threats, And Culture Gungwu Wang,1999-05-06 The reemergence of China as a political force has triggered sharp reassessments of its future role in the Asia Pacific region There has been much hyperbole about China s economic power especially if it is linked with the entrepreneurial talents of the ubiquitous Chinese spread around the globe Some countries have been encouraged to sound warning bells about China s future ambitions to dominate the region All this is not surprising even understandable But the danger of exaggeration to the point where efforts to predict what China and the Chinese will do become merely alarmist

and the predictions become self fulfilling has to be guarded against There is no easy remedy for deep seated suspicion and hostility leading to persistent attempts to mislead and provoke The recent financial crisis in East Asia has aggravated some worst case scenarios and these may bring additional worries to the region s plans for ultimate recovery The three essays in this volume focus on some areas where myths and prejudices have long survived They offer different perspectives and suggest alternative ways to approach certain problems of understanding China s relations with Southeast Asia **JAIR**

Ba,2009-03-26 This book seeks to explain two core paradoxes associated with the Association of Southeast Asian Nations ASEAN How have diverse states hung together and stabilized relations in the face of competing interests divergent preferences and arguably weak cooperation How has a group of lesser self identified Southeast Asian powers gone beyond its original regional purview to shape the form and content of Asian Pacific and East Asian regionalisms According to Alice Ba the answers lie in ASEAN s founding arguments arguments that were premised on an assumed regional disunity She demonstrates how these arguments draw critical causal connections that make Southeast Asian regionalism a necessary response to problems give rise to its defining informality and consensus seeking process and also constrain ASEAN s regionalism Tracing debates about ASEAN s intra and extra regional relations over four decades she argues for a process driven view of cooperation sheds light on intervening processes of argument and debate and highlights interacting material ideational and social forces in the construction of regions and regionalisms
