Looking At Photographs Animals:

Looking at Photographs A. D. Coleman, 1995 *Animals in Photographs* Arpad Kovacs, 2015-05-26 From the invention of photography up through the internet age animals have been a frequent subject of the camera's lens from portraits of beloved pets and exotic creatures to the documentation of human cruelty against them Drawing on the collection of the J Paul Getty Museum this book traces the relationship between animals in photographs and the rapidly advancing technology of photography From the wild dogs of South Africa to William Wegman's photogenic Weimaraners from images of Victorian zoos to visions of the heavy toll of game hunting animals on film are moving sympathetic and sometimes tragic figures In this vivid and engaging book Arpad Kovacs explores the social symbolic scientific and aesthetic approaches to a subject that has been of continuous interest to photographers across the centuries Over ninety full color plates represent image makers ranging from Felice Beato Eadweard Muybridge Andr Kert sz and Alfred Stieglitz to Berenice Abbott Manuel lvarez Bravo and Man Ray More recent photographers such as Robert Mapplethorpe and Hiroshi Sugimoto are represented along with contemporary artists such as Tim Hawkinson Pieter Hugo and Graciela Iturbide The result is a book that shows the evolution of a photographic obsession that abides to this day This book is published on the occasion of the exhibition *In Focus Animalia* on view at the J Paul Getty Museum from May 26 to October 18 2015 *The Practical Guide to Drawing Animals* Peter Gray, 2012-07-15 Engaging charming and continually varied animals make inspirational subject matter for artists In this stimulating guide artist and illustrator Peter Gray leads readers through the stages of capturing animal shapes behavior and expression to create exceptional works of art Whether they are a beginner or a more experienced draftsman the tailored step by step exercises and practical tips will help them get the most out of their animal subjects *Monsters Under the Bed and Other Childhood Fears* Stephen W. Garber, Ph.D., Robyn Freedman Spizman, Marianne Daniels Garber, 2011-04-13 A step by step manual designed to help parents cope with children's fears *Monsters Under the Bed and Other Childhood Fears* discusses common fears how to respond to childhood anxieties and other ways to deal with frightened children With the culture getting scarier and parents getting busier there is a growing need to help parents understand and cope with childhood fears This thoughtful and practical work fulfills that need extraordinarily well Stan and Jan Berenstain authors of *The Berenstain Bears* children's book series This book is about how to respond to your child's fears Most children experience fears of the dark strangers unidentified noises and numerous other things for a short time and then they pass By supporting your child and filling in the gaps in her knowledge you can minimize most of the normal childhood fears many children experience By preparing your child in advance for the new situations she must meet you may be able to avoid new fears From the Introduction Praise for *Monsters Under the Bed* The authors of *Monsters Under the Bed* have created a great resource for parents to help their children The fun part is that some of the basic wisdom in this book may also apply when the occasional wayward monster slips under an adult bed Sheryl Leach president of The Lyons Group creator of *Barney Fears*

often annoy disturb and sometimes even prevent a child from enjoying childhood At no time are fears a laughing matter This book offers parents a variety of clever suggestions on how to help their child slay the ubiquitous monsters that lurk under the bed in the hall and outside the window Today s concerned but busy parents will appreciate the straightforward yet family oriented language of this book Ted Ayllon Ph D professor of psychology and special education Georgia State University author with Mori Freed of Stopping Baby s Colic Science and Technology for the Early Years (2nd Edition) - Purposeful Play Activities Pauline Allen,2012-07 Well planned play opportunities enable young children to learn and develop This book is divided into two sections The first contains ideas on how to design resource areas to stimulate purposeful play The second contains 120 planned science and technology activities divided into the following chapters All about people Changing materials food Animals Variety of materials Plants leaves and flowers Light and colours The outdoor environment Sound Exploring materials Movement and forces Joining materials Electricity The activities are clearly laid out with the Purpose Resources and Safety points given as well as Challenges which can be used to provide a focal point for each activity Assessment is an integral part of the book and the activities are linked to the seven areas of learning and development and the Early Learning Goals of the revised Statutory Framework for the Early Years Foundation Stage September 2012 as well as to the National Curriculum for Science in Key Stage 1 to provide a smooth transition for children as they move from the Foundation Stage to Year 1 **Animals and Women** Carol J. Adams,Josephine Donovan,1995-11-14 Animals and Women is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense Offering a feminist perspective on the status of animals this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species Furthermore it demonstrates that such a focus does not distract from the struggle for women s rights but rather contributes to it This wide ranging multidisciplinary anthology presents original material from scholars in a variety of fields as well as a rare early article by Virginia Woolf Exploring the leading edge of the species gender boundary it addresses such issues as the relationship between abortion rights and animal rights the connection between woman battering and animal abuse and the speciesist basis for much sexist language Also considered are the ways in which animals have been regarded by science literature and the environmentalist movement A striking meditation on women and wolves is presented as is an examination of sexual harassment and the taxonomy of hunters and hunting Finally this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse and that to deny this connection is to participate in the continued mistreatment of animals and women **Digital & Traditional Underwater Photography ,**
