Smith,2009-04-01 As a historical inquiry and synthesis this intellectual history is the first study to apply the ideal type or model building methodology of Otto Hintze 1861 1940 to Western historical thought or to what R G Collingwood called *The Idea of History* for it contains succinct and useful models for seeing and teaching classical Christian and modern professional historiography *Religion and the Rise of History* is also the first work to suggest that in addition to his well known paradoxical simul and or at the same time way of thinking and viewing life Martin Luther also held to a way that was deeply incarnational dynamic and or in with and under This dual vision and a Lutheran ethos strongly influenced Leibniz Hamann and Herder and was

therefore a matter of considerable significance for the rise of a distinctly modern form of historical consciousness commonly called historicism in Protestant Germany Smith's essay suggests a new time period for the formative age of modern German thought culture and education The Cultural Revolution in Germany This age began in the early 1760s and culminated in 1810 with the founding of the University of Berlin the first fully modern and modernizing university This university first became the recognized center for the study of history however through the work of Leopold von Ranke 1795-1886 Here the story shows how a young Ranke derived his individualizing way of thinking and viewing life mainly from Luther how his life work is the best example in Western literature of the rise of history from a calling to a profession and how the three-way discussion between Troeltsch Meinecke and Hintze concerning the nature of modern historical thought was of central importance for the reorientation of Western social historical thought in the twentieth century History and Drama Joachim Küpper, Jan Mosch, Elena Penskaya, 2018-12-03 Aristotle's neat compartmentalization notwithstanding Poetics ch 9 historians and playwrights have both been laying claim to representations of the past arguably since Antiquity but certainly since the Renaissance At a time when narratology challenges historiographers to differentiate their emplotments White from literary inventions this thirteen essay collection takes a fresh look at the production of historico-political knowledge in literature and the intricacies of reality and fiction Written by experts who teach in Germany Austria Russia and the United States the articles provide a thorough interpretation of early modern drama with a view to classical times and the 19th century as an ideological platform that is as open to royal self-fashioning and soteriology as it is to travesty and subverting the means and ends of historical interpretation The comparative analysis of metapoetic and historiosophic aspects also sheds light on drama as a transnational phenomenon demonstrating the importance of the cultural net that links the multifaceted textual examples from France Russia England Italy and the Netherlands Man on His Past Herbert Butterfield, 1979 **History of the World** Dr Malti Malik, History Book A Guide to the Study and Use of Military History John E.
