**The Man Who Created God** Stephen Marton,2010      *Who Created God?* Thomas Shine,2011 This book contains 101 questions that every Christian should know but never thought to ask from who created God to what happens if someone lives in a remote region that has never heard about God and why can't we have multiple wives when people in the Old Testament did Other questions answered in this book Why is there suffering What is wrong with drugs Why would God let someone be mentally or physically challenged How did people live so long in the Bible Are there Aliens from Outer space Are Angels real

*And Man Created God* Robert Banks PhD,2011-04-06 Is God a human invention With *And Man Created God* Robert Banks embarks on a passionate discussion that explores the origins of God How did God come to exist if he was responsible for making everything in the first place This is an example of a question that religious believers may find difficult to answer The question was first asked by Ancient Greek philosophers and has continued to be asked by both believers and atheists Robert Banks wants to find an answer He will guide you through the history of the objection and consider insights from ancient Greek philosophers as well as more modern day objections from Freud Marx and other great analytical minds *And Man Created God* is a fascinating book that comprehensively explores all possibilities and opinions about the origins of God Robert Banks has produced a fascinating book that can be considered particularly useful for somebody who holds an interest in religion or new atheism Ultimately the book explores the issue of whether God could be the product of man rather than the other way around      **And Man Created God** George Carl Mynchenberg,1999-12-19 *AND MAN CREATED GOD* presents the Agnostic view point using science history and logic while denying all religious belief and faith in revelations from a Creator or God Reviews *AND MAN CREATED GOD* is vigorous and clearly written Readers should have no doubt about the position you take the positions you challenge and why you find religious beliefs doubtful It articulates very well what you call the agnostic position Charles F Kielkopf Professor of Philosophy Ohio State University      **God did not create Man/Man Created God**

Sudhansu S. Tunga,2023-10-11 It is our common belief and conviction for most people that God created this universe and all that it possesses including mankind This knowledge is obtained from the religious literature of most religions which is hardly five thousand years old But the universe was born 13.8 billion years earlier and man has appeared on earth just two hundred thousand years ago At that time there was no God Religious beliefs stand upon man's ignorance and superstitions not on any sound scientific examination ascribing that it is man who has created God in his fancy and not the other way round Therefore the concept of God and religion should be forsaken for the betterment of all The book deals with this subject in an objective and rational way analyzing all the relevant literature including religious books history archaeology as also physical sciences and other relevant subjects      *Who Made God?* Ravi Zacharias,Norman L. Geisler,2003 This reference tool on faith presents a summary of accessible answers to over 100 commonly raised apologetic questions      *If God Made the Universe, Who Made God?* Holman Bible Publishers,2012-02-01 Perhaps you remember being in a university class feeling frustrated when the

respected professor dismissed questions from a student because of her religious faith Or maybe over a business lunch one of your colleagues referred to Christianity as a fairytale and you said nothing Many Christians find themselves in such situations but don't speak up because they don't fully realize the strength of their own position They feel incapable of giving reasons for the hope that is theirs Christian apologetics is the discipline and growing body of knowledge that equips believers to address their own doubts to converse with seekers and critics from a position of strength and to bear witness to Christ with confidence In the spirit of the title question If God Made the Universe Who Made God collects 130 essays written in defense of the Christian faith Contributors include some of the pre eminent apologists of our time from Lee Strobel and Charles Colson to Hank Hanegraaff J P Moreland and Ravi Zacharias The content is grouped into ten topics Apologetics Introductory Issues Jesus Christ Science and Faith Cults and World Religions The Existence of God Ethics Theology The Scriptures Heaven and Hell Evangelism

**The World Without God** Madhav Desai, 2014-11-28 Sufficient scientific evidence has emerged for the science minded people to accept that our universe was created and is run without God And that life was created and has evolved without external power The concept of God was man's creation and in the dark ages before science it was inevitable that man should create God But those who accept in the face of the scientific discoveries that God does not have to exist to explain the existence of universe or life on Earth are now faced with an important question Is there a God that plays a role in the personal life of every individual If we delete God from all other explanations is it rational to still believe in an entity that micromanages the lives of all individuals on the Earth Is it possible to visualize how the world and our lives could go on without somebody up there who listens to our prayers intervenes in our lives and rewards or punishes our deeds The World without God is a thought provoking treatise which describes this universe and the human life without depending on concepts like the existence of God the divine mission destiny divine justice soul with existence independent of the body and life after death

**The Radiance of God** Tucker Boaz, 2025-05-29 Every day our brain is inserted with thousands of new and pertinent data One of the categories of data is our concept of God This concept of God recorded in our youth is now being crowded into a smaller and smaller proportion of what is logged While many bits of information get lost or lose their prominence our concept of God lingers on but gets challenged It continues to shine through as spiritual This booklet explains how and why this spiritual component gets brighter through consecutive generations

Fethullah Gulen Jon Pahl, 2019-04-22 In this first critical biography of Fethullah Gulen in English historian Jon Pahl takes us on a journey where we discover wisdom and controversy from 1940's Turkey to the U S in the twenty first century Pahl tells the story of a pious Muslim boy from a tiny and remote Turkish village who on the one hand has inspired a global movement of millions of individuals dedicated to literacy social enterprise and interreligious dialogue but who on the other hand has been monitored by Turkish police seen as a threat by autocrats and recently declared number one enemy by the current Turkish dictator With lively prose and extensive research Pahl traces Fethullah Gulen's life and thought in its contexts states clearly his own

positions and then lets readers draw their own conclusions from the evidence about this undeniably significant historical figure

**The Palpable Universe** Mohammed Muflahi, 2014-03 In a feeble attempt to deceive mankind Stephen W Hawking and Richard Dawkins among others of their ilk have painstakingly persevered in creating a Godless society in the hope intelligent people will accept the theory of evolution as the source that caused the universe to exist Bringing forward arguments they create a multitude of problems they cannot answer resulting in guesses and lies Not knowing where we came from and why we are here scientists will never cease their search for the Truth I have written this book in refutation of their claims and expounded on the subject for clarification

**If Atheists Created God** Andrew Mytaf, 2024-12-21 What kind of God would atheists create if tasked with envisioning a deity rooted entirely in logic physical reality and intuitive morality If Atheists Created God explores this bold question by addressing humanity's core moral dilemmas and examining the key arguments in debates between atheists and Christians At its core the book seeks to derive a rational backup version of God a hypothetical model of a deity that even ardent sceptics and atheists might consider a plausible and acceptable alternative This carefully reasoned philosophical framework envisions a concept of God that would not only align with human understanding but also foster the progress of civilisation This book will appeal to critical thinkers philosophy enthusiasts and anyone seeking a rational approach to life's big questions The author's clear prose makes complex ideas accessible without sacrificing depth Prepare for an intellectual journey that challenges assumptions and expands minds offering a rare opportunity to engage with profound concepts in a truly rational manner Key topics explored include A fresh perspective on free will that resolves disputes between compatibilists and hard determinists An innovative approach to natural evil which is considered unsolvable A nuanced analysis of consciousness personal identity and the nature of the self A rational framework for understanding ethical dilemmas and moral decision making Thought provoking discussions on gender roles hierarchy and equality from evolutionary and philosophical viewpoints The arguments presented are unprecedented and promise to ignite global debates The author skilfully navigates complex terrain offering readers a chance to reconsider their worldviews through rigorous logic and evidence based reasoning By applying analytical philosophy to age old questions he illuminates pathways for reconciling humanistic understanding with existential inquiries

Jeffrey, 2009-02-19 This book explores the powerful new evidence discovered in the last few decades by scientific research in astronomy the nature of the atom and DNA These discoveries have caused a revolution in the world view of thousands of scientists as they were confronted with compelling new evidence that our universe must have been created by a Supernatural Mind Grant Jeffrey's latest book Creation will challenge readers with fascinating new information that confirms the Bible's claim that In the beginning God created the heavens and the earth Content Includes Deep space reveals mysteries of the first moments of creation Wonders of the universe point to a Supernatural Creator A revolution in our understanding of the universe's beginning Astonishing evidence of the universe's intelligent design Remarkable discoveries about the nature of

the atom The collapse of the Theory of Evolution DNA The language of God Modern science discovers God **Journey to God- A spiritual roadmap to find God within.** sanjeev sareen, We all are on a spiritual journey called the journey to God The journey starts from I as various ego identifications and gets completed when we realize ourselves as we truly are It starts when the soul after coming from the Spirit starts its outward journey in the illusionary materialistic world During the journey juggling through the maze of Maaya illusions it forgets its true identity and starts assuming many false identifications with name fame forms caste color status etc But a stage comes when not getting permanent happiness after suffering in many incarnations a spiritual awakening comes We the individual souls then start looking for spiritual direction We shift focus and start our inward journey looking for The Spirit our own true identity This book describes in detail the whole journey and how it matters to us Various Questions about life then start emerging A small voice within begins to question Who am I who is God why God made the world what is my relationship with God what is the purpose of my creation Who am I and why do I matter The Search for the meaning of life thus begins These questions appear quite often in our lifetime but we turn away from them There are many moments we are provoked to ask these We feel since childhood a vague nostalgia for more a divine longing In many ways it is the central struggle of every human life And whether you are 7 or 70 or someplace in between you need to know these This book came to life when in one of my meditation classes I was asked to answer the question of who I am the most profound and deepest question of all the time the first question in all philosophies Sometimes we avoid discovering what we are It is mainly because inquiring earnestly could mean the death of something we hold onto like the idea we have of ourselves the personality ego and all that comes with it Though it took around 60 days to complete this book it contains 60 years of my introspection on these soul searching questions I have tried to share my knowledge on these questions in a very simple structured way with a number of examples stories poems experiments inferred deductions and Vedic explanations The book will surely attract sufficient attention and stretch of mind in certain places to understand the subtle subject After realization the journey gets completed and the soul merges back with the spirit from which it came We feel oneness with God and everything This journey normally is a very long one involving many incarnations with all the pains and pleasures which life throws before us But as the masters say we can complete the journey in one lifetime reaching the ultimate realization called Nirvana Moksha In that stage as Vivekananda says I has all become and all is I Oneness in all beings All beings in self and self in all beings That is freedom from suffering and sorrow Journey with me know about you and find the purpose of life The journey through this book will transform you from a limited I to an infinite Self You are already that The book will bring up to your active awareness the things you already knew deep within but have forgotten now

The God Conspiracy Osho, 2010-02-01 Not believing but only experiencing says Osho in this inspiring book is a way of finding truth and meaning While Nietzsche's declaration that God is dead therefore man is free was an incredible step in understanding he argues it is in itself a negative solution and does not bring freedom Simply removing God is not enough In

The God Conspiracy Osho offers a solution beyond Nietzsche meditation a direct connection with existence itself Here he shows how Zen and meditation allow us to find meaning and significance creativity receptivity and a path to freedom Zen has no God but it has a tremendous power to transform our consciousness to bring so much awareness that committing evil becomes inconceivable This book argues persuasively that transformation cannot be imposed but must come from one's innermost being and understanding

**Walking the Wisdom Path** Swami Aseshananda, 2014-12-15 Swami Aseshananda lived and taught in America for some forty years he was Sri Sarada Devi's last living monastic disciple up until his passing in 1996 He imbibed both the transcendent viewpoint of Advaita Vedanta and the practical teachings of Christianity in his life combining them into a transformative message for the Western culture and the world at large which he gave out untiringly and unstintingly for the many years of his blessed lifetime His presence conferred galvanizing inspiration his words from the podium conveyed powerful vibrations his daily puja up through his ninetieth year transmitted countless blessings His divine utterances and selfless actions during a life of complete commitment are still vibrating in the hearts and minds of the devotees We offer here a selection of lectures the Swami delivered during his time at the Vedanta Society of Portland

**This is Not Just a Painting** Bernard Lahire, 2019-04-15 In 2008 the Musée des Beaux Arts de Lyon acquired a painting called The Flight into Egypt which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Musée des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvas to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly

recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art      **Death Hunt for the Last Werewolf** Dragan Vujic, 2000-12-29 Buck and Billy Jo desperately try to leave the valley and start a life together somewhere else However prior to every planned exodus the local residents beseech them to slay just one more pack of werewolves Each episode promises to contain the last surviving werewolf Thereafter the curse will be lifted and the land shall be set free Fear prevents the valley people from assisting the shooters Alone the deadly duo relentlessly track and hunt the creatures of the night on foot and on horseback They also travel by boat and by truck Perseverance drives Buck and Billy Jo beyond the outer limits of human endurance Heavy losses ensue Family members friends and loved ones fall and perish by the wayside Everything extracts a price especially victory The abominations organize and conduct an unexpected night raid on the unsuspecting humans Tables turn and odds shift dramatically Cautioned twice never to fight on holy ground the werewolf hunters decide to disregard the warning and choose an old abandoned church as their final battleground Emotions overrule logic A bloody massacre results from the showdown The prophecy comes to fruition Dire consequences flow there from      **The Triune God** Edmund J. Fortman, 1999-02-23 A primary condition for fresh thinking on the Trinity is an accurate objective account of past and present thought wrote one reviewer when The Triune God first appeared in 1972 This is what Fortman has presented sensitively accurately and compactly The author sets out to trace the historical development of Trinitarian doctrine from its written beginnings to its contemporary status Thus he treats the biblical witness the Council of Nicea Augustine the Middle Ages and the development of this doctrine from the fifteenth century to the present in the Protestant Orthodox and Catholic traditions
