Spectral Characters Sarah Balkin, 2019-07-31 Theater's materiality and reliance on human actors has traditionally put it at odds with modernist principles of aesthetic autonomy and depersonalization Spectral Characters argues that modern dramatists in fact emphasized the extent to which humans are fictional made and changed by costumes settings props and spoken dialogue Examining work by Ibsen Wilde Strindberg Genet Kopit and Beckett the book takes up the apparent deadness of characters whose selves are made of other people whose thoughts become exteriorized communication technologies and whose bodies merge with walls and furniture The ghostly vampiric and telepathic qualities of these characters Sarah Balkin argues mark a new relationship between the material and the imaginary in modern theater By considering characters whose bodies respond to language whose attempts to realize their individuality collapse into inanimacy and who sometimes don't appear at all the book posits a new genealogy of modernist drama that emphasizes its continuities with nineteenth century melodrama and realism

O. Blackmore,1921 **We Will Win the Day** Louis Moore,2017-09-21 This exceedingly timely book looks at the history of black activist athletes and the important role of the black community in making sure fair play existed not only in sports but across U S society Most books that focus on ties between sports black athletes and the Civil Rights Movement focus on specific issues or people They discuss for example how baseball was integrated or tell the stories of individuals like Jackie Robinson or Muhammad Ali This book approaches the topic differently By examining the connection between sports black athletes and the Civil Rights Movement overall it puts the athletes and their stories into the proper context Rather than romanticizing the stories and the men and women who lived them it uses the roles these individuals played or chose not to

play to illuminate the complexities and nuances in the relationship between black athletes and the fight for racial equality. Arranged thematically, the book starts with Jackie Robinson's entry into baseball when he signed with the Dodgers in 1945 and ends with the revolt of black athletes in the late 1960s symbolized by Tommie Smith and John Carlos famously raising their clenched fists during a medal ceremony at the 1968 Olympics. Accounts from the black press and the athletes themselves help illustrate the role black athletes played in the Civil Rights Movement. At the same time, the book also examines how the black public viewed sports and the contributions of black athletes during these tumultuous decades, showing how the black community's belief in merit and democracy combined with black athletic success influenced the push for civil rights.
