**The Man Without Qualities: A sort of introduction. The like of it now happens, I** Robert Musil, 1953 Translation of the first two volumes of Musil's unfinished novel about 20th century Vienna *Der Mann ohne Eigenschaften* **The World as Metaphor in Robert Musil's *The Man Without Qualities*** Genese Grill, 2012 The first study to utilize the Klagenfurt Edition of Musil's Nachlass offers a close reading of textual variations emphasizing Musil's commitment to the artist's role in re-creating the world Robert Musil known to be a scientific and philosophical thinker was committed to aesthetics as a process of experimental creation of an ever-shifting reality Musil wanted above all to be a creative writer and obsessively engaged in almost endless deferral via variations and metaphoric possibilities in his novel project *The Man without Qualities* This lifelong process of writing is embodied in the unfinished novel by a recurring metaphor of self-generating de-centered

circle worlds The present study analyzes this structure with reference to Musil's concepts of the utopia of the Other Condition Living and Dead Words Specific and Non Specific Emotions Word Magic and the Still Life In contrast to most recent studies of Musil it concludes that the extratemporal metaphoric experience of the Other Condition does not fail but rather constitutes the formal and ethical core of Musil's novel The first study to utilize the newly published Klagenfurt Edition of Musil's literary remains a searchable annotated text The World as Metaphor offers a close reading of variations and text genesis shedding light not only on Musil's novel but also on larger questions about the modernist artist's role and responsibility in consciously re-creating the world Genese Grill holds a PhD in Germanic Literatures and Languages from the Graduate School and University Center of the City University of New York

**Alienation** Rahel Jaeggi, 2014-07-15 The Hegelian Marxist idea of alienation fell out of favor during the post metaphysical rejection of humanism and essentialist views of human nature In this book Jaeggi draws on phenomenological analyses grounded in modern conceptions of agency along with recent work in the analytical tradition to reconceive of alienation as the absence of a meaningful relationship to oneself and others which manifests itself in feelings of helplessness and the despondent acceptance of ossified social roles and expectations A revived approach to alienation helps critical social theory engage with phenomena such as meaninglessness isolation and indifference which have broad implications for issues of justice By severing alienation's link to a problematic conception of human essence while retaining its social philosophical content Jaeggi provides resources for a renewed critique of social pathologies a much neglected concern in contemporary liberal political philosophy Her work revisits the arguments of Rousseau Hegel Kierkegaard and Heidegger placing them in dialogue with Thomas Nagel Bernard Williams and Charles Taylor

**The End of History** Barry Cooper, 1984-12-15 History ended according to

Hegel according to Kojve with the establishment and proliferation in Europe of states organized along Napoleonic lines rational bureaucratic homogenous atheist This state lives in some tension with the popular slogan that helped give it birth Liberty Equality Fraternity But there is now also totalitarianism the only new kind of regime according to Arendt created since the national state Man is now in charge of nature technology and society much of political life has become a gaggle elaborating the meaning of the Napoleonic model This interpretation however opposed it seems to common sense has been influential particularly in France where the course of existentialism is unintelligible without taking it into account Professor Cooper argues that it is inherently plausible and examines the arguments of Hegel and Kojve to reveal its consistency and explanatory power And he applies it to more contemporary events the experience of the atomic bomb the Gulag system of extermination and the growth of multinational corporations The work concludes by pulling together the presuppositions and theories of the totalitarian system the Hegelian version of the Napoleonic state and our contemporary technological society Overall the reader will find here a complete and challenging presentation of how the modern world understands its collective life

**Creating the Other** Nancy M. Wingfield, 2004-09-01 The historic myths of a people nation usually play an important role in the creation and consolidation of the basic concepts from which the self image of that nation derives These concepts include not only images of the nation itself but also images of other peoples Although the construction of ethnic stereotypes during the long nineteenth century initially had other functions than simply the homogenization of the particular culture and the exclusion of others from the public sphere the evaluation of peoples according to criteria that included level of civilization yielded rankings of ethnic groups within the Habsburg Monarchy That provided the basis for later more divisive ethnic characterizations of exclusive nationalism as addressed in this volume that examines the roots and results of ethnic nationalist and racial conflict in the region from a variety of historical and theoretical perspectives *Dietrich & Riefenstahl: Hollywood, Berlin, and a Century in Two Lives* Karin Wieland, 2015-10-05 Finalist for the National Book Critics Circle Award Biography Named one of the Best Books of the Year by the Washington Post and the Boston Globe Masterful in scope this dual biography examines two complex lives that began alike but ended on opposite sides of the century's greatest conflict Marlene Dietrich and Leni Riefenstahl born less than a year apart lived so close to each other that Riefenstahl could see into Dietrich's Berlin apartment Coming of age at the dawn of the Weimar Republic both sought fame in Germany's burgeoning motion picture industry While Dietrich's depiction of Lola Lola in *The Blue Angel* catapulted her to Hollywood stardom Riefenstahl who missed out on the part insinuated herself into Hitler's inner circle to direct groundbreaking if infamous Nazi propaganda films like *Triumph of the Will* Dietrich who toured tirelessly with the USO could never truly go home again Riefenstahl could never shake her Nazi past Acclaimed German historian Karin Wieland examines these lives within the vicious crosscurrents of a turbulent century evoking piercing insights into the modern era's most difficult questions about illusion and mass intoxication art and truth courage and capitulation New Yorker [Genealogies of Genius](#)

Joyce E. Chaplin, Darrin M. McMahon, 2015-12-08 The essays in this volume seek to examine the uses to which concepts of genius have been put in different cultures and times Collectively they are designed to make two new statements First seen in historical and comparative perspective genius is not a natural fact and universal human constant that has been only recently identified by modern science but instead a categorical mode of assessing human ability and merit Second as a concept with specific definitions and resonances genius has performed specific cultural work within each of the societies in which it had a historical presence *Cultural Writings of Franz Rosenzweig* Barbara E. Galli, 2000-06-01 Published here in English for the first time these essays offer a glimpse into the cultural and social dimensions of Franz Rosenzweig's thought an aspect of his philosophy that has too often been ignored by an overemphasis on his status as a religious thinker Barbara E Galli provides a broader context for Rosenzweig's concepts especially his orientation in the modern world and concerns regarding modernity and technological developments Galli's overriding theme of Rosenzweig and the modern world bridges his philosophical perspective on pagans Christians and Jews with his views of Moses Mendelssohn the cultural significance of Lessing the writing of Stefan George and even the modern phenomenon of the concert hall as recorded on the phonograph As Galli explicates Rosenzweig's cultural musings devotees of Rosenzweig will find new and refreshing approaches to his philosophical writings *Weimar Intellectuals and the Threat of Modernity* Dagmar Barnouw, 1988-06-22 the range power and archival resourcefulness of Barnouw's book will make it impossible for anyone working in the field to ignore this powerful and disturbing historical meditation on the societal function and responsibility of the intellectual The German Quarterly a work of real value for patient readers American Journal of Sociology a forceful and compelling thesis that challenges our understanding of several seminal figures writing during the first half of the century Monatshefte In this challenging study of a complex period Barnouw investigates the works of seven representative figures of the Weimar republic Walter Rahtenau Robert Musil Thomas Mann Walter Benjamin Ernst Jünger Hermann Broch and Alfred Döblin *The Riddle of Freud* Estelle Roith, 2005-08-12 In *The Riddle of Freud* Estelle Roith argues that certain important elements of Judaic culture were so integral a part of Freud's personality that they became visible in his work and especially in his attitudes to and theories of femininity Freud's formulation of femininity which the author contends is mistaken is seen not as a simple error but as resulting from a complex bias in which personal and social factors are interrelated The author proposes that the considerable ambivalence experienced by Freud about his sexual cultural and social identity in which both overt and covert aspects of his Jewish culture survived could not be surmounted by him in the case of women Estelle Roith describes Freud's theory of femininity and its implications for psychoanalytic theories of human development and motivation in general She examines Freud's relationships with his women disciples and also the social and political conditions that obtained for Jews of Freud's time Finally her book helps illuminate the reasons for Freud's emphasis on the paternal power within the Oedipus complex It is essential reading for psychoanalysts and psychotherapists for students of women's issues and all those

interested in Freud's impact on contemporary Western thought      **The British Library General Catalogue of Printed Books 1976 to 1982** British Library, 1983      **Robert Musil and the NonModern** Mark M. Freed, 2011-04-28 Positions
