The Tectonic Shudder of October 7, 2023 in the Middle East Raphael Israeli, 2024 This volume describes the large gap between the image of the October 7 massacre by Hamas against Israelis and the ensuing Gaza War as a minor neighborhood rift between Israel and the Palestinians But it ended up with two global forces arrayed against each other Iran the head of the Octopus with its tentacles in Syria Lebanon Gaza and Yemen backed by the entire Islamic world and by Russia and China the former to divert attention from Ukraine the latter to ensure its oil supply and the other the U S that supports Israel in that rift with several Western countries backing them only hesitantly and temporarily due to domestic Muslim pressures within their own borders

Defending the Holy Land Zeev Maoz, 2009-04-15 Defending the Holy Land is the most comprehensive analysis to date of Israel s national security and foreign policy from the inception of the State of Israel to the present Author Zeev Maoz s unique double perspective as both an expert on the Israeli security establishment and esteemed scholar of Mideast politics enables him to describe in harrowing detail the tragic recklessness and self made traps that pervade the history of Israeli security operations and foreign policy Most of the wars in which Israel was involved Maoz shows were entirely avoidable the result of deliberate Israeli aggression flawed decision making and misguided conflict management strategies None with the possible exception of the 1948 War of Independence were what Israelis call wars of necessity They were all wars of choice or worse folly Demonstrating that Israel s national security policy rested on the shaky pairing of a trigger happy approach to the use of force with a hesitant and reactive peace

diplomacy Defending the Holy Land recounts in minute by minute detail how the ascendancy of Israel's security establishment over its foreign policy apparatus led to unnecessary wars and missed opportunities for peace A scathing and brilliant revisionist history Defending the Holy Land calls for sweeping reform of Israel's foreign policy and national security establishments This book will fundamentally transform the way readers think about Israel's troubled history Zeev Maoz is Professor of Political Science at the University of California Davis He is the former head of the Graduate School of Government and Policy and of the Jaffee Center for Strategic Studies at Tel Aviv University as well as the former academic director of the M A Program at the Israeli Defense Forces National Defense College Cover photograph Israel Jerusalem Western Wall and The Dome of The Rock Courtesy of Corbis

Imagining the Perfect Society in Muslim Brotherhood

Journals Kiki M. Santing, 2020-08-24 The investigation of the Egyptian Muslim Brotherhood during the presidencies of Anwar Sadat and the early years of Hosni Mubarak is based on the movement's main journals al Da wa and Liw al Isl m presenting its history during two relevant periods 1976 1981 1987 1988 These journals show that contrary to the focus in modern research e a sharia laws gender relations or ideas of democracy the Brotherhood is a much more broadly oriented social political opposition movement taking Islam as its guideline The movement's own versatile discourse discusses all aspects of daily and spiritual life An important adage of the Brotherhood is Islam as a ni m k mil wa sh mil a perfect and all encompassing system Faith should play a role in every aspect of daily life from cooking dinner and housekeeping to education holidays enemy images legislation and watching television Islam is everything and everything is Islam In its journals the Brotherhood provided its unique reflection of the spirit of the age The movement presented itself as a highly reactive group that responded to current events and positioned itself as a moral religious and political opposition to the Egyptian regime

Christianophobia Raphael Israeli, 2016-06-28 In the present upheaval in the Islamic world as chaos war and vengeance are overtaking order security and civil rights Muslim radicals have been venting their frustrations among their minorities most of whom are Christian from ancient Chaldeans in Iraq to Orthodox denominations in Turkey from Catholics in Indonesia and Malaysia to remote and isolated Christian communities in Afghanistan and Pakistan Related to this vast and escalating phenomenon has been the violent activity of some within the Muslim minorities in the West who have migrated there in the past few decades and now seek revenge against their former colonial masters This is taking place in the context of fast increasing numbers of Muslims in the West the result both of high birthrates and of escalating legal and illegal immigration from Islamic lands

Complex Effects of International Relations Ofer Israeli, 2020-11-01 In this comprehensive and unique theory practice study Ofer Israeli examines complex effects of international relations relating to various indirect intended and unintended consequences of intentional human action These effects may be desirable or undesirable overt or covert anticipated or surprising foreseeable but unanticipated and anticipated but simultaneously neglected or discounted Israeli focuses on six case studies from the Middle East analyzing the unexpected and accidental

results of interventions in this region by the United States the United Kingdom and other Western powers during the Cold War From this research he develops a complex causal mechanism or practical tool that countries may use to implement foreign policy with the goal of reducing the number of conflicts and wars globally especially in the Middle East

Arab Approaches to Conflict Resolution Nahla Yassine-Hamdan, Frederic Pearson, 2014-07-11 This book examines Arab approaches to mediation negotiation and settlement of political disputes This book proposes that two clusters of independent variables are potentially responsible for the distinctive nature of Arab conflict resolution Firstly those linked with Arab political regimes and imperatives and secondly those linked with Arab and or Islamic culture The text also focuses on the Arab League and its history of involvement in crisis and conflict situations along with the roles of individual leaders emissaries and extra regional actors such as IGOs Inter Governmental Organisations in undertaking mediation initiatives IGO and Arab League activity has taken on new importance since the various intervention attempts in connection with the Arab Spring since 2011 During the negotiation process most Arab regimes tend to view conflicts within a broad historical context and Islamic culture prioritises the cohesion of the community and internal stability of the state over individual autonomy This has created an authoritarian style of leadership and in practice leaders in the Middle East have had near absolute authority in the decision making process a fact which will have a lot of weight in conflict management and whether peace will endure for a long period of time This book is unique in studying these clusters through comparative systematic case study analysis of events prior to and subsequent to the Arab Spring augmented by a quantitative analysis of sample data on Arab disputes compiled from a larger and newly augmented study comprising the years 1945 2000 Complementary data from the Uppsala Conflict Data Program s UCDP data base of armed conflicts since 1975 is also utilized This book will be of much interest to students of conflict resolution peace and conflict studies Middle Eastern politics and IR in general

Expedient Identity Raphael Israeli, 2020-06-19 The twenty percent Arab Palestinian minority in Israel which enjoys officially equal rights refuses to recognize and accept the concept of a Jewish Zionist state Even though Israel is where Palestinians live they strive to misuse Israeli democracy allowing their representation of fifteen MK or Members of Parliament to subvert the legitimacy of the Israeli state and to totter it This would allow them to create a bi national Jewish Arab country where Arabs can veto anything Jewish or Zionist in its symbols or regime But since the Jewish majority is adamant in maintaining the Jewish state established more than seven decades ago the Arabs who cannot reconcile their present situation will have to choose eventually between living in permanent friction and frustration or restarting a new life in one of the surrounding 22 Arab or 57 Muslim countries where their likely adaptation would be much smoother and seamless One major figurehead mentioned in the book is MK Ahmed Tibi who despite being the darling of the liberal Israeli media often adopts extremist anti Israeli views and claims that Israel incites against his nation

The Middle East ,1989 The Oslo Idea Raphael Israeli, 2017-07-05 The idea of peace is always enchanting for it encompasses the tranquility and serenity for which every human yearns The

nation of Israel has never known peace but it dreams of peace In practice Israel navigates between the poles of war and peace with endless middle of the road situations like cease fire truce armistice and other temporary cessations of hostilities The Oslo Idea traces the roots of the current campaign to delegitimize Israel The campaign is not linked to Israeli resistance to the absence of an acceptable settlement between Israel and the Palestinians or to Israel's reluctance to abandon territory It results from a change of tactics by the Palestinian leadership Israeli argues that these tactics have been used to exhaust reduce and replace Israel rather than produce a compromise Half the Palestinian people and other uncompromising Arabs and Muslims have stated that goal openly and act to achieve it Raphael Israeli deconstructs the immense illusion of the Oslo peace accords which initiated the so called peace process He shows how Oslo lured a naive Israeli leadership into a trap He shows how outside factors bent on finding and supporting an evasive peace have helped perpetuate the fiasco Oslo represents He shows how Oslo's supporters have advanced the peace process by coaxing and threatening Israel behind the scenes and binding Israel alone with the Oslo commitments and their derivatives More importantly the author outlines and analyzes the basic and seemingly unbridgeable points of contention that remain security refugees settlements water borders and the status of Jerusalem itself

Chances for Peace Elie Podeh, 2015-11-15 Drawing on a newly developed theoretical definition of missed opportunity Chances for Peace uses extensive sources in English Hebrew and Arabic to systematically measure the potentiality levels of opportunity across some ninety years of attempted negotiations in the Arab Israeli conflict With enlightening revelations that defy conventional wisdom this study provides a balanced account of the most significant attempts to forge peace initiated by the world's superpowers the Arabs including the Palestinians and Israel From Arab Zionist negotiations at the end of World War I to the subsequent partition the aftermath of the 1967 War and the Sadat Initiative and numerous agreements throughout the 1980s and 1990s concluding with the Annapolis Conference in 2007 and the Abu Mazen Olmert talks in 2008 pioneering scholar Elie Podeh uses empirical criteria and diverse secondary sources to assess the protagonists roles at more than two dozen key junctures A resource that brings together historiography political science and the practice of peace negotiation Podeh's insightful exploration also showcases opportunities that were not missed Three agreements in particular Israeli Egyptian 1979 Israeli Lebanese 1983 and Israeli Jordanian 1994 illuminate important variables for forging new paths to successful negotiation By applying his framework to a broad range of power brokers and time periods Podeh also sheds light on numerous incidents that contradict official narratives This unique approach is poised to reshape the realm of conflict resolution

Twenty Cars that Defined the 20th Century James Morrison, 2024-02-02 On the 29 June 1914 Archduke Franz Ferdinand was assassinated in Sarajevo triggering events leading to the outbreak of the First World War Less well known is that the car he was in was a borrowed Graf Stift Double Phaeton that the route was published in advance and the decision to lower the hood was only taken at the last minute As with the other events in this book the car played a central role yet its history is largely unknown These cars not only had their own

stories in terms of design ownership and the role they played but they are also a way of telling the story of the events themselves they are literally a vehicle for history In this book James Morrison takes 20 cars involved in twenty key 20th century world events and examines their involvement and history to provide a new angle and fascinating insights *Islam and Dhimmitude* Bat Ye'or, 2002 Dhimmitude is thus discussed from the perspective of Muslim theory and also in regard to divergent Christian attitudes to Jews and Zionism BOOK JACKET **Peaceful Territorial Change** Arie Marcelo Kacowicz, 1994
