Pearce Williams,1977 Geschichte Der Renaissance in Deutschland Wilhelm Lübke,1914 **Echoes of Aquinas in Cusanus's Vision of Man** Markus Führer,2014-02-19 This book demonstrates the influence that the philosophical and theological anthropology of Saint Thomas Aquinas had on Nicholas of Cusa s Cusanus view of human nature While Rudolf Haubst suggested that Aquinas had in fact influenced several factors of Cusanus theology Haubst did not explore the topic of anthropology Since the philosophy of man is supposed to be one of the determining characteristics of the Renaissance and because there is a prevailing opinion that Cusanus was not only a Renaissance philosopher but indeed one of the founders of Renaissance humanism I demonstrate that his view of the place of man in the universe is remarkably similar to the view of Aquinas A close examination of the texts of both thinkers when compared to some of the leading Renaissance writers indicates that it is not entirely true that Cusanus is Renaissance in his analysis of the human condition Because Cusanus copies of some of the works of Aquinas are still intact and his marginal comments in these manuscripts indicate not only that he read Aquinas carefully but also actually reacted to texts in Aquinas it is possible to conduct a study of Cusanus use of Aquinas based directly on the text of Aquinas It is also possible to explore similarities by studying the formulae that both writers used in expressing their respective positions The present study appeals to students and scholars of late medieval theology and philosophy in its unique examination of the impact of Aquinas thought upon Cusanus Magic and the Dignity of Man Brian P. Copenhaver,2019-11-19 Pico della Mirandola one of the most remarkable thinkers of the Renaissance has become known as a founder of humanism and a supporter of secular rationality Brian Copenhaver upends this understanding of Pico unearthing the magic and mysticism in the most famous work attributed to him Oration on the Dignity of Man The Theater of Man J. A. Fernández-Santamaría,1998 Born in Spain and long time resident of Bruges Juan Luis Vives is one of the keenest and most neglected minds of the northern Renaissance A many sided intellect and critical observer of the contemporary scene Vives contribution includes treatises on metaphysics psychology education rhetoric logic religion and social reform And it is precisely the central premise of this monograph that what links these diverse works together and turns Vives literary production into a whole larger than the sum of its parts is the author s single minded commitment to the Socratic dictum that an unexamined life is not worth living But because man s Fall caused him to lose his pristine ability to accomplish that task as an individual he must now do it in the context of a God mandated man created institution society whose origins and evolution Vives explains in Stoic terms Building on a foundation of Socratic Aristotelian optimism and Augustinian pessimism he concludes that social man can indeed reach the bonitas

which alone makes beatitude possible But at a price for Vives the Skeptic insists that man must forego the use of that ratio speculativa which seduces him into thinking that he can probe into nature s being and understand his own divine nature
