German Drama and Theater Hellmut H. Rennert,2004 This collection of articles by both German literature specialists and German theater experts grew out of the Comparative Drama Conference held annually between February and March from 1977 to 1999 in Gainesville Florida At the center of the contributors work is the productive tension between the literary and the performance aspects of German drama and theater At the same time the reception is truly American since the German playwrights directors theorists and dramatists discussed have gone through creative filters in the researching performing

and teaching of German drama and theater on various campuses across the United States during the last third of the twentieth century The Visual Focus of American Media Culture in the Twentieth Century Wiley Lee Umphlett, 2004 This is a sociocultural history of the visually oriented mass media forms that beguiled American society from the 1890s to the end of World War II The purpose of the work is to show how revolutionary technological advances during these years were instrumental in helping create a unique culture of media made origins By focusing on the communal appeal of both traditional and new modes of visual expression as welcome diversions from the harsh realities of life this book also attends to the American people's affinity for those special individuals whose talent vision and lifestyle introduced daring new ways to avoid the ordinariness of life by fantasizing it Also examined is the sociocultural impact of an ongoing democratization process that through its nurturing of a responsive media culture gradually eroded the polar postures of the elite and mass cultures so that by the mid 1940s signs of a coming postmodern alliance were in the air Illustrated Before his retirement Wiley Lee Umphlett served as an administrator professor at the University of West Florida for more than twenty five years

A Century of Man-Made Disasters Nigel Blundell,2019-10-30 A pictorial history of the major man made calamities that shocked the world throughout the twentieth century It was a period during which the power and scale of industrialization changed the planet an unforeseen consequence being the creation of more human created catastrophes than ever before experienced The events recorded here include the needless carnage of history s worst air disaster when two jumbo jets collided on the island of Tenerife We recall the horrors of Aberfan the Welsh village in which schoolchildren were buried alive The story of the explosion aboard the Challenger space shuttle reveals how warnings that were ignored led to the deaths of seven astronauts And we report on the failings that caused the nuclear nightmare at Chernobyl a poisonous blot on the face of the globe These and the other tragedies in this book were all man made and it seems just waiting to happen A further link between these horrific events is that they were all caused by either folly or greed or both But despite the tales of monstrous misfortune many also produced heart lifting stories of heroism selflessness sacrifice and human resilience *The Century Dictionary and Cyclopedia: Dictionary* William Dwight Whitney,Benjamin Eli Smith,1897
