Norman,2012-12-06 **The State, Society and Big Business in South Korea** Yeon-Ho Lee,2002-09-11 This book examines how the South Korean state is able to execute national policies that are opposed to the interests of social constituents despite the expansion of social power The relationship between the government and big business provides an illuminating example of this The author demonstrates how Confucian values the role of the family and a firm hierarchical tradition have prevented South Korea from developing a modern state on the Western model **Science and Development in Thai and South Asian Buddhism** David L Gosling,2019-11-27 Becoming a Buddhist monk in Thailand has for a long time provided the opportunity for access to a good education and to social advancement both to bright poor rural youths and to members of the urban elite whose youth often become monks for a few months as a rite of passage into adulthood Moreover although women are not allowed to become fully fledged monks recent developments have encouraged a special status akin to nuns for many devout Thai Buddhist women All this has resulted in large numbers of well educated well motivated Buddhist religious people keen both to engage in religious contemplation and also determined to contribute to this worldly social economic educational and medical development goals This book by a leading authority on the subject considers the role of Thai Buddhist religious people in development within Thailand It discusses how Thai Buddhism has evolved philosophically and in its organisation to allow this examines various examples of Buddhist people s engagement in development projects and assesses how the situation is likely to unfold going forward In addition the book considers the relationship between science and religion in Thai Buddhism and also some aspects of the parallel situation in Sri Lanka **Imagining the Public in Modern South Asia** Brannon Ingram,J. Barton Scott,SherAli K Tareen,2018-02-02 In South Asia as elsewhere the category of the public has come under increased scholarly and popular scrutiny in recent years To better understand this current conjuncture we need a fuller understanding of the specifically South Asian history of the term To that end this book surveys the modern Indian public across multiple historical contexts and sites with contributions from leading scholars of South Asia in anthropology history literary studies and religious studies As a whole this volume highlights the complex genealogies of the public in the Indian subcontinent during the colonial and postcolonial eras showing in particular how British notions of the public intersected with South Asian forms of publicity Two principal methods or approaches the genealogical and the typological have characterised this scholarship This book suggests more in the mode of genealogy that the category of the public has been closely linked to the sub continental history of political liberalism Also discussed is how the studies collected in this volume challenge some of liberalism s key presuppositions about the public and its relationship to law and religion **Buddhist Psychology** Edwina Pio,1988 **Indigenous South Americans Of The Past And Present** David J. Wilson,2018-02-07 Utilizing ethnographic and

archaeological data and an updated paradigm derived from the best features of cultural ecology and ecological anthropology this extensively illustrated book addresses over fifteen South American adaptive systems representing a broad cross section of band village chiefdom and state societies throughout the continent over the past 13 000 years Indigenous South Americans of the Past and Present presents data on both prehistoric and recent indigenous groups across the entire continent within an explicit theoretical framework Introductory chapters provide a brief overview of the variability that has characterized these groups over the long period of indigenous adaptation to the continent and examine the historical background of the ecological and cultural evolutionary paradigm The book then presents a detailed overview of the principal environmental contexts within which indigenous adaptive systems have survived and evolved over thousands of years It discusses the relationship between environmental types and subsistence productivity on the one hand and between these two variables and sociopolitical complexity on the other Subsequent chapters proceed in sequential order that is at once evolutionary from the least to the most complex groups and geographical from the least to the most productive environments around the continent in counterclockwise fashion from the hunter gatherers of Tierra del Fuego in the far south to the villagers of the Amazonian lowlands to the chiefdoms of the Amazon v ea and the far northern Andes and finally to the chiefdoms and states of the Peruvian Andes Along the way detailed presentations and critiques are made of a number of theories based on the South American data that have worldwide implications for our understanding of prehistoric and recent adaptive systems

interpretation of the past Drawing on a number of theoretical perspectives this book critically investigates the flourishing monument phenomenon in South Africa the political discourses that fuel it its impact on identity formation its potential benefits and most importantly its ambivalences and contradictions     *Buddhism, Imperialism and War* Trevor Ling, 2023-05-03 Buddhism Imperialism and War 1979 is a lively provocative and informative study of two of the most important Buddhist countries of South East Asia Burma and Thailand Buddhism gives in theory a high place to the maintenance of peace both between individuals and between social groups In practice however Buddhist nations are no strangers to the battlefield This book explores the complexity surrounding the issue and reveals much for the first time that has been obscure and misunderstood
