themselves damaged after being in an abusive relationship or being the victim of a crime but it was great how they came together and realized they needed each other in order to heal The intimate scenes were explosive I m off to read the next book in the series Kindle Customer Well written The psychological aspects of the novel are well done Not overly The romance is solid Loved this book BendOre Excellent story about the effects of PTSD and overcoming them Relatable characters and likable Left me wanting more I look forward to the second book in the series Carley B This was the first story Ruby wrote in first person view and wow she did it in such an amazing way I mean I already thought before that Ruby is a gifted writer but after this book I m looking for a word that increases the word gifted I m honestly just so very proud of her Once more Ruby touched me deeply and my heart went out to both characters I actually saw so much of myself in Logan that I sometimes thought Dani is speaking to me It was almost scary Of course that also means that Ruby made me cry again Like she does it just every time Not sure how I should feel about that but I think I will just say thank you Thank you Ruby for letting me be a part of your journey For letting me forget everything around me every time I read one of your books For letting me feel all those feelings Besides I don t know how you do it but your quotes at the beginning of your books always get to me This time especially the second one I will try to keep that in mind for whenever there are doubts again I won t reveal too much about the story What I can say is that as always you get all the feelings including some very hot scenes And you get to see characters that have to deal with some real baggage and that are doing that in such a wonderful way Last but not least I loved those diary entries so very much Everyone who reads the book will hopefully feel the same And the best about it is that this was just the start of a new series and there will be more I wanna finish my review with a saying that suits the book perfectly Maybe it s not always about trying to fix something broken Maybe it s about starting over and creating something better Conny
