 Fleischman,Warwick Funnell,Stephen P. Walker,2013 The critical tradition in accounting historiography has come to occupy
 a prominent place in the discipline s academic scholarship Some critical literature has confronted the responsibility of
 accounting and accountants in precipitating contemporary crises such as the audit failures that spawned Sarbanes Oxley and
 the world wide recession Certain contemporary issues have long histories such as the difficulties encountered by women to
 break the glass ceiling in public accounting and the suffering of indigenous peoples under the imperialistic yoke Other
 episodes in accounting s long history are seemingly more divorced from the present but in reality they all have contemporary
 significance Slavery in the New World for example although abolished more than a century ago is still rampant in parts of the
 world albeit less formally Critical accounting historians feel it a duty to harken to the suppressed voices of the past those
 groups of people who had no access to an accounting record women persons of color indigenous populations alienated
 proletarians victims of governmental incompetence and graft and many voiceless others Critical Histories of Accounting
 Sinister Inscriptions in the Modern Era draws on the foremost work in this developing literature both that authored by the co
 editors of this volume and that written by others Editors Richard K Fleischman Warwick N Funnell and Steve Walker have
 written extensively about the dark side of accounting gauging the complicity of those performing accounting functions in
 episodes in human history that are at worst evil and at best reprehensible The editors have also hand selected a series of
 historical and contemporary episodes that have been critically investigated by the wider accounting history community
 preceded by a thorough introduction
