Management Accounting Carsten Berkau, 2023-09-25 Management Accounting is a textbook for business management study programmes. It covers the international syllabus of cost accounting and controlling on bachelor's and master's levels. Prof. Berkau has more than 25 years of teaching experience in Germany, UAS Osnabrück and at international universities in South Africa, Malaysia, China, the Netherlands and South Korea. The textbook strictly follows a case study based approach. All methods are discussed by easily understandable cases. The calculations demonstrate how to apply management accounting step by step. In the first chapters, the case study PENOR PLC about a British windows doors manufacturer explains the differences between financial accounting IFRSs and management accounting. In the next following sections, the textbook covers two points of view: 1. a controlling view with budgeting, cost volume profit analysis, degree of operating leverage, investment appraisal, mergers and cross border acquisitions and risk valuation Monte Carlo Simulation; 2. a cost accounting view that covers management accounting systems, flexible budgeting, cost allocation methods, performance measurement, monitoring, reporting, product calculation, manufacturing accounting, job order and process costing, activity based costing, target costing and contribution margin accounting. On the UVK website, numerous exam tasks with complete solutions, further study materials and links to video clips produced by Prof. Berkau are available for download.

Management Accounting Professor Carsten Berkau, 2020-04-20 Management Accounting is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands and South Korea. In this text book, the application of methods and instruments comes first. Management Accounting follows a case study based approach. All cases are taken from previous exam papers and explained in detail. The text book starts with a case study of a manufacturing company and compares Financial Accounting to Management Accounting. It covers two point of views: 1. a General Management view with aspects of business planning, cost volume profit analysis, degree of operating leverage, mergers and cross border acquisitions and risk valuation; 2. a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting, job order and process costing, activity based costing and multi level contribution margin Accounting. On the UVK website, numerous exam tasks and complete solutions thereto are available in English.

Management Accounting Hugh Coombs, David Hobbs, Ellis Jenkins, 2005-08-27 By adopting a new approach to helping students understand how management accounting contributes to decisions in a variety of organizational contexts, this textbook sets out clear explanations of practical management accounting techniques in the context of the application of these techniques to decisions. Uniquely, the book examines the analytical and critical issues that often influence decision makers operating within private and public sector organizations. It is supported by

case studies of varying complexity that will allow students to work at their own level and also includes summaries
