regarding a variety of viewpoints and strategies that educator preparation programs must be cognizant of in order to meet the varied and individualized needs of novice teachers so that the academic behavioral and or social emotional needs of their students are effectively supported Overall this book recognizes the constant need for improvement within educator preparation programs and school systems showcases that teacher retention is a concern across the United States and globally and shows how educator preparation programs and schools districts must reach across the boundaries of content specificity and collaborate to prepare teacher candidates most effectively Covering topics such as teacher retention collaborative partnerships and growth mindset this book is essential for educational preparation faculty educational leadership faculty P 12 general and special education teachers administrators government officials pre service teachers students researchers and academicians
