Benjamin Lev Editor in Chief of Omega the highest ranked journal in management science JCR *Business Ethics* Jacques Cory, 2012-12-06 Morten And what are we going to do when you have made liberal minded and high minded men of us Dr Stockman Then you shall drive all the wolves out of the country my boys Ibsen An Enemy of the People Act V The theoretical and empirical research of this book describes how the traditional safeguards of the rights of minority shareholders have failed in their duty and how those shareholders have remained practically without any protection against the arbitrariness of the companies and majority shareholders The law the SEC society boards of directors independent directors auditors analysts underwriters and the press have remained in many cases worthless panaceas Nevertheless in the Ethics of 2000 new vehicles have been developed for the protection of minority shareholders mainly the Internet transparency activist associations and ethical funds Those vehicles give the shareholders at least the chance to understand the pattern and methods that are utilized to wrong them and give them a viable alternative for investment in ethical funds The new vehicles will prevent minority shareholders from using the Armageddon weapon by ceasing to invest in the stock exchange and causing the collapse of the system that discriminates against them **A Companion to Business Ethics** Robert E. Frederick, 2008-04-15 In a series of articles specifically commissioned for this volume some of today's most distinguished business ethicists survey the main areas of interest and concern in the field of business ethics Sections of the book cover topics such as the often easy relation between business ethics and capitalism the link between business ethics and ethical theory how ethics applies to specific problems in the business world the connection between business ethics and related academic disciplines and the practice of business ethics in modern corporations Includes extensive accessible discussion of all of the main areas of interest and debate in business ethics Features all original contributions by distinguished authors in business ethics Includes an annotated table of contents bibliographies of the relevant literature and a list of internet sources of material on business ethics Perfect comprehensive book for use in business ethics courses **A Noble Calling** David W. Whitlock, Gordon Dutilleul, 2008-01-01 Too often individuals who have been called to practice their gifts and talents in the field of business and professional life sense that to serve God they ought to be doing something more directly involved with the church Many successful business leaders upon coming to faith in Christ or upon renewing their interest in God's Word struggle with whether or not they should enter vocational ministry Certainly God calls some from among the professions into such vocations but many simply haven't realized the full potential of where God has placed them God's people who are assigned to duties in corporate boardrooms or offices on sales forces in entrepreneurial ventures and as members of research and development teams are among his most effective servants Believers who are active in the marketplace are surely among God's most treasured ministers and have the potential to have a wider impact and larger influence than most who serve in full time vocational ministries Likewise these professionals have a capacity for great harm to the church and the cause of Christ if while they make claims of Christian belief their actions prove inconsistent with what God's Word teaches if their

walk doesn't match their talk. Be encouraged! God wants to use you where you are. He wants to sanctify all of what you have learned and experienced. You have great potential in the kingdom.

Making of an African Giant Dan Mou, 2015-10-16. The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities. The hope that Nigeria is, by destiny, the African Giant appears to be fading. Some analysts seeing this have blamed it on the character defects of the leadership in Nigeria. They argue that because the leaders are predatory and corrupt, they have preoccupied themselves with their interests, which are primitive accumulation and luxurious lifestyles. Meanwhile, the rest of the citizens are suffering. This book argues that such character defects may indeed exist in some of Nigerian leaders. However, these are not the main reasons for their dismal performance regarding the welfare of the citizens. The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies, which appear to have been captured by the dominant classes and groups. Local and international Nigeria's main problem is therefore a structural one. Nonetheless, the book concludes that as the security, economic, political, and social crises intensify, Nigerian leaders, even if it is simply for self-preservation, will be forced by the objective conditions to move against the interests of these dominant classes and groups. It is only then that Nigeria can realistically be restored to the possibility of becoming an African Giant.

Whitlock, Gordon Dutilleul, 2008-04-01 Psalm 15 begins with two related questions LORD who may dwell in your sanctuary Who may live on your holy hill v 1 These are questions worthy of our consideration as Christian business professionals seeking to integrate our faith and our work The psalmist answers the questions with the following description He whose walk is blameless and who does what is righteous who speaks the truth from his heart and has no slander on his tongue who does his neighbor no wrong and casts no slur on his fellowman who despises a vile man but honors those who fear the LORD who keeps his oath even when it hurts who lends his money without usury and does not accept a bribe against the innocent He who does these things will never be shaken vv 2 5 NIV Using this psalm as a basis Southwest Baptist University s College of Business and Computer Science is devoted to educating Psalm 15 professionals who exemplify traits including integrity service respect charity faithfulness truthfulness humility and perseverance The devotions in this small volume draw readers attention to the need for believers to exemplify such character traits Contributions from the SBU faculty and administration remind us of the necessity to approach life and work with a biblical worldview This volume is an abbreviated version of another Resource Publications book A Noble Calling Devotions and Essays for Business Professionals also available from Wipf and Stock Publishers www.wipfandstock.com National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally

with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwali Palace Abuja Nigeria

The Happiness Agenda S. Burnett, 2011-11-22 Explores why contemporary Anglo American society is obsessed with happiness Striving to be happy is now a morally imperative pursuit Through the lens of novel social theory this book explicates how this has transpired as consequence of a complex conspiracy of coordination between political organisational and psychological developments

After Sunday Armand Larive, 2004-05-01 Many people devote themselves to their work And it is an easy step from there to show that this devotion has a strong religious bent But does it follow that devotion to work is bending the knee to idolatry giving service to mammon This book says no not necessarily In many cases human work is co creative with the Creator Why then is there so little effort to explore the theological dimension of everyday work The principal impediment to a proper theological understanding of work is the church's voracious appetite to concentrate everything onto Sunday and its own institutional needs The kingdom of God gets foreshortened to ecclesiastical boundaries so that the shop floor the foundry or the lumberyard and all other places of work are out of bounds Another impediment keeps the doctrine of the laity too anemic to possess a creativity of its own This book lays a positive theological framework for a Christian understanding of work be it manual intellectual service related or not It does this chiefly around the doctrine of the Trinity It then turns to show how this system can underpin an ethics and spirituality of work
