Management Practices and Business Development in Pakistan, 1947-1988 Naveed Hasan, 1997 This book encompasses many diverse topics such as the decision making style of Pakistan's early entrepreneurs since 1947 state incentives to business groups the evolution of management practices and the universal applicability of the Systems Approach as having explanatory power for long term growth of business groups The relationship between these issues poses new challenges for the scholar The role of the owner manager as decision maker or forward looking entrepreneur and businessman offers insight into the politico business culture in early industrialization In the long term it was the internal organizational factors drawing from the Systems Approach methodology that prevailed over the external environment of the Groups examined Hence long term growth was dependent on consistent adoption of systems not connections The work of this author provides a bridge between the past and current debate on which business strategy is the most effective or sustainable given that businesses operate in different environments culture ownership structures and political regimes **New**

Perspectives on Pakistan's Political Economy Matthew McCartney, S. Akbar Zaidi, 2019-09-19 This volume makes a major intervention in the debates around the nature of the political economy of Pakistan focusing on its contemporary social dynamics This is the first comprehensive academic analysis of Pakistan's political economy after thirty five years and addresses issues of state class and society examining gender the middle classes the media the bazaar economy urban spaces and the new elite The book goes beyond the contemporary obsession with terrorism and extremism political Islam and simple civilian military relations and looks at modern day Pakistan through the lens of varied academic disciplines It not only brings together new work by some emerging scholars but also formulates a new political economy for the country reflecting the contemporary reality and diversification in the social sciences in Pakistan The chapters dynamically and dialectically capture emergent processes and trends in framing Pakistan's political economy and invite scholars to engage with and move beyond these concerns and issues *Gunpoint Capitalism* Laurent Gayer, 2025-03-01 On 11 September 2012 over 250 workers of Ali Enterprises which produced jeans for the German discount retailer KiK perished in a fire in their Karachi factory Was this an accident or an arson attack Straight away the tragedy gave rise to contradictory interpretations While some blamed the exploitative logics of fast fashion others suspected foul play by the political parties preying on the city and its business class Taking as a starting point the controversy caused by this disaster *Gunpoint Capitalism* plunges us into the murky waters of globalization Exploring the back alleys of Pakistan's industrial capital city it shows how the manufacturing economy makes order out of disorder and profit out of conflict to the detriment of workers In Karachi as elsewhere petty criminals and ex servicemen prove to be formidable enforcers of economic order A comparison with Europe the United States and Latin America confirms the central place of such henchmen in the dynamics of capitalism These shock troops of anti unionism are now participating in the dismantling of the social state This probing sometimes shocking book sheds new light on the power
