Global Business Today Postscript 2003, Map and Powerweb Charles W. L. Hill, 2002-07. *Global Business Today* has become an established text in the International Business market for its excellent but concise coverage of the key global issues including the cultural context for global business, cross border trade and investment, the global monetary system, and competition in the global environment. *GBT*'s concise chapters give a general introduction to international business, emphasizing the environmental factors with less coverage of operations. Charles Hill is renowned for his attention to research trends, and that is evident in *GBT* through a variety of real world examples and cases from small, medium, and large companies throughout the world. 2003 Postscript 32 pages make up this postscript edition. In this postscript, we review some important developments that have occurred since the manuscript for the second edition of this book was sent to the publishers, and we discuss the implications of these developments for international business. One development has been the continuing globalization of the world economy. Here we update the statistics contained in this book and look at the 2001 slowdown in the rate of economic growth across the three major economies of the world: the United States, Japan, and the European Union. The FDI is revisited, and as well. A second important development has been the growing tide of protests against globalization. Here we review the reasons for the protests and discuss their implications. Another important development was the formal adoption of euro notes and coins by 12 nations of the European Union on January 1st 2002. In this postscript edition, the progress of the euro to date is examined. The postscript closes with a review of the economic and political achievements of the twentieth century and a discussion of the outlook for the early years of the twenty-first century.
