This is awesome I would like to deeply thank Aveiro University the GOVCOPP research centre the conference committee the keynote speakers the special session convenors the stream leaders the reviewers the authors and the administrative people for all their work and support I want to have two special words one for Blazenka Knezevic without whom the website would not have been possible the other for Gaby Neumann for work in these Proceedings Scientifically TAKE seems to be as important and new and far reaching We don't have shortage of models regarding the knowledge economy but we decisively lack to explore the relation between theory and practice TAKE is a step in exploring that difference We know that Exact sciences find the best answers and social sciences give the best questions J C Spender and we also know that Knowledge Management is more preached by scholars than done by practitioners Aino Kianto We assume the first idea and try to overcome the second Hopefully TAKE 2016 will be a great success Thank you for everything

indirect impact on brand desirability Yet this effect mechanism has not only been found to be brand dependent but also culture dependent In this context the mediating role of brand self congruity was confirmed across all cultures and brands investigated Important implications are derived for research and brand management In different countries different brand personality dimensions lead to brand desirability Therefore brand managers should know their markets understand cultural differences and adjust their brand strategy accordingly in order to attain brand desirability
