In Search of Faithfulness William E. Diehl, 2001-09-11 Why is Christian faithfulness virtually invisible in American society today Where are God's faithful people and what do they look like In an effort to answer these questions William E Diehl records the results of his own search for faithfulness I decided to look for faithfulness in those very places where it appeared not to be in the world of business for instance And I decided to use exactly the same approach used by Peters and Waterman in their best seller *In Search of Excellence* Using real life stories to illustrate both the successes and problems of Christian faithfulness in the world community Diehl concludes that the church must do a better job in nurturing growth in faith

Managing Productivity in Organizations Richard E. Kopelman, 1986 *Public Productivity Through Quality and Strategic Management* Arie Halachmi, Geert Bouckaert, 1995 The book deals with the complexity of several concepts like the following example Quality is by no means a simple or single concept it can mean compliance with pre determined specifications of processes or outputs it can mean assessment of outcomes or gatekeeping in other words assuring the quality of the inputs etc The parallels with measuring productivity are obvious if you cannot get good handles on outputs then use inputs and then politicians wonder why productivity appears to stagnate in services This problem of the simple becoming complicated was understood by the Japanese at the inception of their productivity movement Having carefully analyzed how Europe had adopted and adapted American productivity techniques and approaches and being faced with a turbulent system of industrial relations and a poor quality image the initiators of the Japanese productivity movement came to the conclusion that at least a cease fire and at best a treaty had to be negotiated between organised labour management and government The resulting 1955 productivity principles are being addressed in the book *Harvard Business School Core Collection* Baker Library, 1993 *Operations and Industrial Management* Donald Del Mar, 1985
