Management Information Systems with PowerWeb for MIS Stephen Haag, Maeve Cummings, Donald J. McCubbrey, 2001-11 Management Information Systems for the Information Age 3rd edition maintains the unique overall approach of the successful second edition the right mix of traditional and leading edge topical coverage along with LOTS of hands on problem solving projects Haag works well for professors and students who want a very interactive engaging experience and for those who want to see a strong tie to the latest and greatest on the Internet and corresponding textbook website Haag is equally appropriate for both business and non business majors This revision now clearly distinguishes between technical and managerial topics key to MIS by organizing the technology coverage into Modules and the managerial material into Chapters In response to feedback from both users and non users the chapters have been slightly reorganized to incorporate increased coverage of E Commerce and E Business now a full chapter 5 Pedagogical features have been retained but fine tuned and the vibrant design has been toned down to reflect fewer features on a page *Management Information Systems*.
