Technology and Strategy Richard A. Goodman, Michael W. Lawless, 1994-10-06 In today's complex dynamic competitive landscape management of technology can mean the difference between success and failure Managers and researchers alike need effective ways to conceptualize and develop technology strategies Richard Goodman and Michael Lawless provide tools needed to integrate firms technology capabilities with their competitive direction Technology and Strategy presents models that help put technology and its market impacts into perspective It addresses the broad questions of how technology and markets evolve how technology can re order the rules of competition and how it can shift the balance of individual firms competitive advantage It also blends topics currently capturing attention in business circles such as Total Quality Management and the resource based view of the firm into a clear view of technology management programs

Technology and Strategy also describes methods to develop specific strategies to cope with challenges facing executives like evaluating promising but untried new technologies Using actual case studies from the electronics and bio tech industries Goodman and Lawless demonstrate the use of new techniques to formulate strategy including Technology Mapping and the Innovation Audit Both were created to help executives choose the approach to technology best suited to their firms particular capabilities Offering clear practical guidance through a complex fast changing world of competition this new analysis of technology and strategy is a valuable guide for general managers R D and manufacturing managers strategic planners and academics

Management of Technological Change E.G. Frankel, 2012-12-06 Technological change has been recognized as the major contributor to economic growth and has become one of the most important challenges to policy makers and managers Many excellent books and papers have been written on the subject Most of these deal with the macro or micro economic impact of technological change or the technological change process from invention and discovery to innovation development and final maturity as well as ultimate obsolescence of technology This book is designed to present technological change as a decision process and explain the use of recently developed methods for the effective management of technological change In particular techniques for the effective choice among technological alternatives timing of the introduction of new technology both in terms of its own status and that of the technology to be replaced if any and the rate and method of introduction of new technology are presented Management of technology is a complex decision process which is affected by both internal and external factors The purpose of this book is to instruct the reader in effective technology decision making which involves the evaluation of the status of technology in use if any the problem to be solved or output to be obtained determination of environmental and internal constraints and the competitive environment or market conditions which affect the technology decisions

Crisis Management Strategy Simon A. Booth, 2015-09-25 Crisis Management Strategy first published in 1993 is an excellent introduction to the theory and practice of crisis management in modern enterprises Simon Booth examines the conventional approaches followed by many firms in the face of change and crisis He warns of the dangers of theories which oversimplify the causes of crisis and their possible solutions and which overlook the individual nature of each firm and its environment Instead a dynamic new vision of crisis management is offered which takes into account different kinds of crisis demanding diverse solutions The key role of leadership is also evaluated in relation to both internally and externally generated crises Drawing on case studies of leading firms facing crisis solutions in a variety of environments this truly international volume will provide valuable insight into the experience of crisis risk and uncertainty This title will be of interest to students of business
