This book is the first in-depth analysis of the management and operation of these domestic private firms, which are defined as companies or organizations created by PRC citizens, including township enterprises and collectives. The book provides a comprehensive and multidisciplinary perspective on the factors important to the successful operation and growth of these firms. It begins with a review of the literature on the topic in three different disciplines: economics, sociology, and management, each followed by several chapters covering recent developments in these areas. Featuring contributions by distinguished scholars and China experts, the work concludes with an insightful chapter on the future of China's public sector in the global economy. *Eurasian Economic Perspectives* Mehmet Huseyin Bilgin, Hakan Danis, Gökhan Karabulut, Giray Gözgor, 2020-03-31.
