Barnes,Michael Brainin,2011-07-12 Evidence based peer reviewed best practice management guidelines for neurologists Diagnosis is only part of the puzzle Effective treatment is what your patients really want The European Federation of Neurological Societies has been publishing management guidelines in the European Journal of Neurology for many years Developed by a consensus approach using graded evidence and then fully peer reviewed these guidelines provide gold standard best practice guidance to the treatment of neurological disorders They help bridge the gap between what is done and what should be done for patients with neurological disorders The basic guidelines have been expanded with Recommendations based on strong evidence and Good Practice Points where only weaker evidence is available The Guidelines in this volume cover Investigation Major neurological diseases Neuromuscular diseases Infections Neurological problems Sleep disorders Rehabilitation The European Handbook of Neurological Management provides a thoroughly rounded and grounded approach to best practice neurological management using evidence based principles *Managing Chronic Conditions in Older Adults with Cardiovascular Disease, An Issue of Clinics in Geriatric Medicine* Michael W. Rich,Cynthia Boyd,James T. Pacala,2016-07-09 This issue of Clinics in Geriatric Medicine guest edited by Drs Cynthia Boyd James T Pacala and Michael W Rich is devoted to Chronic Conditions in Older Adults with Cardiovascular Disease Articles in this issue include Epidemiology of multimorbidity in older adults with cardiovascular disease Impact of multimorbidity on clinical outcomes in older adults with cardiovascular disease Assessment of goals of care in patients with multiple chronic conditions Challenges in decision making balancing trade offs Multimorbidity in older adults with heart failure Multimorbidity in older adults with acute coronary syndromes Multimorbidity in older adults with aortic stenosis Multimorbidity in older adults with atrial fibrillation Anticoagulation in older adults with multimorbidity Approach to evaluating the multimorbid patient with cardiovascular disease undergoing non cardiac surgery Integrating care across disciplines Assessing risks and benefits of invasive cardiac procedures in patients with advanced multimorbidity Multimorbidity and end of life care in patients with cardiovascular disease and Future research directions for cardiovascular disease Severe Behavior Disorders in the Mentally Retarded Rowland P. Barrett,2013-11-22 It is well known that behavior problems are a salient characteristic of children and adults with mental retardation That is not to say that all persons with mental retardation experience behavior disorders how ever most studies indicate that the incidence of emotional disturbance in this population is four to six times greater than that observed in similar intellectually nonhandicapped children and adults It is equally well known that the principal form of treatment accorded clients with

mental retardation and behavior disorders is pharmacotherapy or the prescription of behavior modifying drugs Recent studies show that 6 out of every 10 individuals with mental retardation have been prescribed drugs as treatment for disorders of emotion or behavior Unfortunately further studies indicate that only one or 2 out of every 10 clients receiving medication are determined to be responders such that some therapeutic benefit is derived from their drug treatment As noted by the title the single major thrust of this volume is to review approaches to the treatment of behavior disorders in persons with mental retardation from a nondrug perspective This requires the presentation of a wide range of material on treatment basic behavior modification programming cognitive behavioral strategies habilitative approaches counseling and psychotherapy designing therapeutic living environments managing medical factors bearing relevance to emotional illness intervening with families training special education teachers and direct care staff and supplying information on the client's rights to obtain treatment in the least restrictive and least intrusive manner
