McShane, Franklin P.

Williams, 1993 Section 1 pages 1 to 68 presents an overview of the literature on prison management and the results of a national survey of wardens which enquired into actual management styles problem solving techniques and decision making approaches The national survey aimed to determine how much the literature reflected the wardens management practices Findings showed that corrections management largely reflects the literature in that it has inconsistencies an emphasis on personnel experience and an inward focus These results were used to develop a perspective focusing on a humane and caring relationship between manager and staff Section 2 pages 72 to 301 contains abstracts of the 100 most important works both essay and research on correctional institution management      **Crisis Management in Community Corrections**

Correctional Service Canada. Task Force on Crisis Management in Community Corrections, 1990 The Task Force reviewed the existing state of crisis management in community corrections noting weaknesses that resulted in a poor ability to prevent critical situations from becoming crisis situations that threaten the credibility of community corrections The Report recommended the adoption of a new policy framework for crisis management The Community Interaction Model of crisis response consists of four interrelated phases planning response recovery and conciliation all seen as a continuous process rather than as a one off response to a particular event This model is described in some detail and an implementation process is suggested      **Prison Management, Prison Workers, and Prison Theory** Stephen C. MacKenzie, 2013-03-08 Despite the dire forecasts of others who had themselves edited books we proceeded with the project of an edited volume on the American prison although with more than a little trepidation We had heard the horror stories of authors turning in their chapters months or years late or never at all of publishers delaying

publication dates of volumes that read more like patchwork quilts than finely loomed cloth As if to prove the others wrong our experience in editing this volume has been mar velous and we think the volume reflects this Most likely the success of our experience and of the volume stems from two elements first the professionalism and commitment of the authors themselves and second the fact that early in the life of this volume most of the authors convened for a conference to critique and coordinate the chapters This book brings together an illustrious group of criminologists and correctional scholars who wrote chapters explicitly for this volume Co hesiveness was furthered by the charge we gave to each author to 1 present the major issues 2 review the empirical research and 3 dis cuss the implications of this work for present and future correctional policy The goal of this project was to examine the major correctional issues facing prison systems The chapters scrutinize the issues from the perspective of the system and the individual from theory to practical and daily management problems from legal to psychological concerns      *Behind the Badge* Sharon M.
