Managing Displacement Refugees And The Politics Of Humanitarianism:

Managing Displacement Jennifer Hyndman, 2000 **Humanitarianism, War, and Politics** Peter J. Hoffman, Thomas G. Weiss, 2017-06-27 What is humanitarianism This authoritative book provides a comprehensive analysis of the original idea and its evolution exploring its triangulation with war and politics Peter J Hoffman and Thomas G Weiss trace the origins of humanitarianism its social movement and the institutions international humanitarian law and organizations providers of assistance and protection that comprise it They consider the international humanitarian system s ability to regulate the conduct of war to improve the wellbeing of its victims and to prosecute war criminals Probing the profound changes in the culture and capacities that underpin the sector and alter the meaning of humanitarianism they assess the reinventions that constitute revolutions in humanitarian affairs The book begins with traditions and perspectives ranging from classic international relations approaches to Critical Humanitarian Studies and reviews seminal wartime emergencies and the creation and development of humanitarian agencies in the late nineteenth and twentieth centuries The authors then examine the rise of new humanitarianisms after the Cold War s end and contemporary cases after 9 11 The authors continue by unpacking the most recent revolutions the International Criminal Court and the Responsibility to Protect as well as such core challenges as displacement camps infectious diseases eco refugees and marketization They conclude by evaluating the contemporary system and the prospects for further transformations identifying scholarly puzzles and the acute operational problems faced by practitioners

The Politics of Humanitarian Technology Katja Lindskov Jacobsen, 2015-06-05 This book offers a detailed exploration of three examples of humanitarian uses of new technology employing key theoretical insights from Foucault We are currently seeing a humanitarian turn to new digital technologies such as biometrics remote sensing and surveillance drones However such humanitarian uses of new technology have not always produced beneficial results for those at the receiving end and have sometimes exposed the subjects of assistance to additional risks and insecurities Engaging with key insights from the work of Foucault combined with selected concepts from the Science and Technology Studies literature this book produces an analytical framework that opens up the analysis to details of power and control at the level of materiality that are often ignored in liberal histories of war and modernity Whereas Foucault details the design of prisons factories schools etc this book is original in its use of his work in that it uses these key insights about the details of power embedded in material design but shifts the attention to the technologies and attending forms of power that have been experimented with in the three humanitarian endeavours presented in the book In doing so the book provides new information about aspects of liberal humanitarianism that contemporary critical analyses have largely neglected This book will be of interest to students of humanitarian studies peace and conflict studies critical security studies and IR in general

political history **Internally Displaced Persons and International Refugee Law** Bríd Ní Ghráinne, 2022-03-15

Internally Displaced Persons (IDPs) are persons who have been forced to leave their places of residence as a result of armed conflict, violence, human rights violations or natural or human-made disasters but who have not crossed an international border. There are about 55 million IDPs in the world today, outnumbering refugees by roughly 2:1. Although IDPs and refugees have similar wants, needs and fears, IDPs have traditionally been seen as a domestic issue and the international legal and institutional framework of IDP protection is still in its relative infancy. This book explores to what extent the protection of IDPs complements or conflicts with international refugee law. Three questions form the core of the book's analysis: What is the legal and normative relationship between IDPs and refugees? To what extent is an individual's real risk of internal displacement in their country of origin relevant to the qualification and cessation of refugee status? And to what extent is the availability of IDP protection measures an alternative to asylum? It argues that the IDP protection framework does not, as a matter of law, undermine refugee protection. The availability of protection within a country of origin cannot be a substitute for granting refugee status unless it constitutes effective protection from persecution and there is no real risk of refoulement. The book concludes by identifying current and future challenges in the relationship between IDPs and refugees, illustrating the overall impact and importance of the findings of the research and setting out questions for future research.

Refugees, the State and the Politics of Asylum in Africa J. Milner, 2009-11-06 How do African states respond to the mass arrival and prolonged presence of refugees? This book answers this question by drawing on recent case studies and examining the politics behind refugee policy in Africa. The implications of this approach are important not only for the study of asylum in Africa but also for the future of refugee protection.

Fragments of Home Tom Scott-Smith, 2024-09-03 Abandoned airports. Shipping containers. Squatted hotels. These are just three of the many unusual places that have housed refugees in the past decade. The story of international migration is often told through personal odysseys and dangerous journeys, but when people arrive at their destinations, a more mundane task begins: refugees need a place to stay. Governments and charities have adopted a range of strategies in response to this need. Some have sequestered refugees in massive camps of glinting metal. Others have hosted them in renovated office blocks and disused warehouses. They often end up in prefabricated shelters flown in from abroad. This book focuses on seven examples of emergency shelter, from Germany to Jordan, which emerged after the great summer of migration in 2015. Drawing on detailed ethnographic research into these shelters, the book reflects on their political implications and opens up much bigger questions about humanitarian action. By exploring how aid agencies and architects approached this basic human need, Tom Scott-Smith demonstrates how shelter has many elements that are hard to reconcile or combine: shelter is always partial and incomplete, producing mere fragments of home. Ultimately, he argues that current approaches to emergency shelter have led to destructive forms of paternalism and concludes that the principle of autonomy can offer a more fruitful approach to sensitive and inclusive housing.

Refugees in Extended Exile Jennifer

Hyndman, Wenona Giles, 2016-10-04 This book argues that the international refugee regime and its temporary humanitarian interventions have failed Most refugees across the globe live in protracted conditions that extend from years to decades without legal status that allows them to work and establish a home It is contended that they become largely invisible to people based in the global North and cease to remain fully human subjects with access to their political lives Shifting the conversation away from the salient discourse of solutions and technical fixes within state centric international relations the authors recover the subjectivity lost for those stuck in extended exile The book first argues that humanitarian assistance to refugees remains vital to people's survival even after the emergency phase is over It then connects asylum politics in the global North with the intransigence of extended exile in the global South By placing the urgent crises of protracted exile within a broader constellation of power relations both historical and geographical the authors present research and empirical findings gleaned from refugees in Iran Kenya and Canada and from humanitarian and government workers Each chapter reveals patterns of power circulating through the colonial present Cold War legacies and the global war on terror Seeking to render legible the more quotidian struggles and livelihoods of people who find themselves defined as refugees this book will be of great interest to international humanitarian agencies as well as migration and refugee researchers including scholars in refugee studies and human displacement human security globalization immigration and human rights

Humanitarian Borders Polly Pallister-Wilkins, 2022-06-07 Winner of the International Political Sociology book award for 2023 What does it mean when humanitarianism is the response to death injury and suffering at the border This book interrogates the politics of humanitarian responses to border violence and unequal mobility arguing that such responses mask underlying injustices depoliticise violent borders and bolster liberal and paternalist approaches to suffering Focusing on the diversity of actors involved in humanitarian assistance alongside the times and spaces of action the book draws a direct line between privileges of movement and global inequalities of race class gender and disability rooted in colonial histories and white supremacy and humanitarian efforts that save lives while entrenching such inequalities Based on eight years of research with border police European Union officials professional humanitarians and grassroots activists in Europe's borderlands including Italy and Greece the book argues that this kind of saving lives builds expands and deepens already restrictive borders and exclusive and exceptional identities through what the book calls humanitarian borderwork

Refugees in International Relations Alexander Betts, Gil Loescher, 2011 Drawing together the work and ideas of a combination of the world's leading and emerging International Relations scholars Refugees in International Relations provides a comprehensive and challenging overview of the international politics of forced migration

Rethinking Refugees Peter Nyers, 2013-11-15 Rethinking Refugees Beyond State of Emergency examines the ways in which refugees have been made objects of the complex discourse practices and strategies of humanitarianism making visible the link between our knowledge of refugees and questions about the changing status of political power space and identity The author draws upon post structural analytical tools to develop a

critique of humanitarianism and to sketch a bio political framework for understanding the relationship between the humanity of refugees and their capacity or lack thereof for political voice and action Rethinking Refugees is a radically fresh approach to understanding refugees their movements and their place within an increasingly globalized international politics **The New Humanitarians in International Practice** Zeynep Sezgin, Dennis Dijkzeul, 2015-12-14 As humanitarian needs continue to grow rapidly humanitarian action has become more contested with new actors entering the field to address unmet needs but also challenging long held principles and precepts This volume provides detailed empirical comparisons between emerging and traditional humanitarian actors It sheds light on why and how the emerging actors engage in humanitarian crises and how their activities are carried out and perceived in their transnational organizational environment It develops and applies a conceptual framework that fosters research on humanitarian actors and the humanitarian principles In particular it simultaneously refers to theories of organizational sociology and international relations to identify both the structural and the situational factors that influence the motivations aims and activities of these actors and their different levels of commitment to the traditional humanitarian principles It thus elucidates the role of the humanitarian principles in promoting coherence and coordination in the crowded and diverse world of humanitarian action and discusses whether alternative principles and parallel humanitarian systems are in the making This volume will be of great interest to postgraduate students and scholars in humanitarian studies globalization and transnationalism research organizational sociology international relations development studies and migration and diaspora studies as well as policy makers and practitioners engaged in humanitarian action development cooperation and migration issues *Forced Migration* Alice Bloch, Giorgia Dona, 2018-08-15 *Forced Migration Current Issues and Debates* provides a critical engagement with and analysis of contemporary issues in the field using inter disciplinary perspectives through different geographical case studies and by employing varying methodologies The combination of authors reviewing both the key research and scholarship and offering insights from their own research ensures a comprehensive and up to date analysis of the current issues in forced migration The book is structured around three main current themes the reconfiguration of borders including virtual borders the expansion of prolonged exile and changes in protection and access to rights The first chapters in the collection provide both context and a theoretical overview by situating current debates and issues in their historical context including the evolution of field and the impact of the colonial and post colonial world order on forced migration and forced displacement These are followed by chapters framed around substantive issues including deportation and forced return protracted displacements securitising the Mediterranean and cross border migration practices refugees in global cities forced migrants in the digital age and second generation identity and transnational practices *Forced Migration* offers an original contribution to a growing field of study connecting theoretical ideas and empirical research with policy practice and the lived experiences of forced migrants The volume provides a solid foundation for students academics and policy makers of the main questions

being asked in contemporary debates in forced migration *Interpreting Welfare and Relief in the Middle East* Nefissa Naguib, Inger Marie Okkenhaug, 2008 Based on different problematic and methodological perspectives and new sources this book's contributions lie in the close study of welfare beyond the religious divides codifications and indoctrinations The time span from 1850 to the present day represents moments of colonisations occupations wars and conflicts which resulted in unmet needs and broken down institutions What are the stories behind health care schools orphanages and vocational schools maternity homes and hostels The collection of chapters examine different involvements in welfare activities not only as contextualised in stable communities and nations but also as they emerge in vulnerable states and disintegrating societies Furthermore this volume brings forth the historical and contemporary voices of those who provide relief and the beneficiaries of such efforts At the core of this book are themes concerned with humanitarianism in relation to people's unique experiences state and non governmental organisations gender and modernity *Disaster, Conflict and Society in Crises* Dorothea Hilhorst, 2013-07-18 Humanitarian crises resulting from conflict natural disaster or political collapse are usually perceived as a complete break from normality spurring special emergency policies and interventions In reality there are many continuities and discontinuities between crisis and normality What does this mean for our understanding of politics aid and local institutions during crises This book examines this question from a sociological perspective This book provides a qualitative inquiry into the social and political dynamics of local institutional response international policy and aid interventions in crises caused by conflict or natural disaster Emphasising the importance of everyday practices this book qualitatively unravels the social and political working of policies aid programmes and local institutions The first part of the book deals with the social life of politics in crisis Some of the questions raised are What is the meaning of human security in practice How do governments and other actors use crises to securitize and hence depoliticize their strategies The second part of the book deals with the question how local institutions fare under and transform in response to crises Conflicts and disasters are breakpoints of social order with a considerable degree of chaos and disruption but they are also marked by processes of continuity and re ordering or the creation of new institutions and linkages This part of the book focuses on institutions varying from inter ethnic marriage patterns in Sri Lanka to situation of institutional multiplicity in Angola The final part of the book concerns the social and political realities of different domains of interventions in crisis including humanitarian aid peace building disaster risk reduction and safety nets to address chronic food crises This book gives students and researchers in humanitarian studies disaster studies conflict and peace studies as well as humanitarian and military practitioners an invaluable wealth of case studies and unique political science analysis of the humanitarian studies field *The Tsunami of 2004 in Sri Lanka* Ragnhild Lund, Piers Blaikie, 2013-10-18 This book is based on empirical research in Sri Lanka conducted after the catastrophic tsunami which hit the country in December 2004 The aims of the research have been to develop new knowledge on post crisis reconstruction and recovery work on how to bridge the knowledge gap

between researchers and practitioners as well as trying to use past research experiences from Sri Lanka to learn about the present day situation The chapters use a common analytical frame related to the policy narratives of post tsunami recovery in the shadow of war and deal with housing reconstruction livelihoods internally displaced humanitarian interventions and protracted conflicts The authors represent various social scientific fields and they have experience from different geographical areas of Sri Lanka This book was published as a special issue of Norsk Geografisk Tidsskrift
