Military Tribunals Historical Patterns And Lessons:

Military Tribunals Louis Fisher, 2004 After the terrorist operations of September 11 2001 President George W Bush authorized the creation of military tribunals to try individuals who offered assistance to the attacks on New York City and Washington D C The military order issued by President Bush closely tracks the model established by President Franklin D Roosevelt for a military tribunal appointed in 1942 to try eight German saboteurs This report summarizes the types of military tribunals that have functioned from the Revolutionary War to the present time explaining the legislative enactments that have guided these tribunals and the judicial decisions that have reviewed their constitutionality One of the principal methods of legislative control over military trials including tribunals are the Articles of War that Congress enacts into law The Constitution vests in Congress the power to constitute Tribunals inferior to the supreme Court to make rules for the Government and Regulation of the land and naval Forces and to define and punish Piracies and Felonies committed on the high Seas and Offences against the Law of Nations By enacting Articles of War Congress defined not only the procedures but also the punishments to be applied to the field of military law At various times executive officials have claimed that the President has authority under the Constitution to create military tribunals and does not depend on statutory authorization The Supreme Court has never accepted that argument Instead it looks for implied or express statutory authority when upholding military tribunals On a number of occasions federal courts have expressed concern that military tribunals enable an administration to exercise all three powers of government legislative executive and judicial and that the concentration of those powers threatens individual rights and liberties This report will be updated as events warrant

Swindlers All, a Brief History of Government Business Frauds from Alexander Hamilton to AIG Michael Powelson, 2019-04-24 In the wake of the Great Recession of 2007 2008 millions of hardworking Americans lost their jobs and their homes their retirements and their income However the corporations that caused the Great Recession lost nothing and were in fact given trillions of dollars by the government in an unprecedented financial bailout While over 16 trillion dollars went missing not a single Wall Street executive was punished or even charged with a crime This book chronicles some of the government and business frauds carried out throughout US history These swindles were carried out by such Founders as Alexander Hamilton George Washington James Madison and Thomas Jefferson Corruption was also at the core of the Andrew Jackson administration and played a key role in perpetrating the Panic of 1837 and government and business fraud was rampant in the construction of both the transcontinental railroad and the Panama Canal Court rulings granting corporations the status of legal personage were part of a broader scam that extended greater constitutional and legal protections to corporations while denying Blacks and workers their own constitutional and legal rights Government and business frauds of the 1920s played a prominent role in spawning the Great Depression of 1929 while funding and provisioning the US military has always been inundated with a wide variety of scams In the early 1990s government and business scams resulted in the collapse of the savings and loan industry while the frauds of the early 21st century resulted in

the Great Recession of 2007 2008 Today all of the factors are in place to lead to yet another depression recession which will be followed inevitably by a massive government bailout of banks and corporations Soldiers on the Home Front William C. Banks, Stephen Dycus, 2016-01-04 When crisis requires U S troops to deploy on American soil the nation depends on a rich body of law to establish lines of authority guard civil liberties and protect democratic institutions William Banks and Stephen Dycus analyze the military's domestic role as it is shaped by law and ask what we must learn and do before the next crisis

Free Speech and the Suppression of Dissent During World War I Eric Thomas Chester, 2020-08-24 A comprehensive history of the National Civil Liberties Bureau's role in the anti war movement during the First World War World War I given all the rousing Over There songs and in the trenches films it inspired was at its outset surprisingly unpopular with the American public As opposition increased Woodrow Wilson's presidential administration became intent on stifling antiwar dissent Wilson effectively silenced the National Civil Liberties Bureau forerunner of the American Civil Liberties Union Presidential candidate Eugene Debs was jailed and Debs' Socialist Party became a prime target of surveillance operations both covert and overt Drastic as these measures were more draconian measures were to come In his absorbing new book *Free Speech and the Suppression of Dissent During World War I* Eric Chester reveals that out of this turmoil came a heated public discussion on the theory of civil liberties the basic freedoms that are theoretically untouchable by any of the three branches of the U S government The famous clear and present danger argument of Supreme Court Justice Oliver Wendell Holmes and the balance of conflicting interest theory of law professor Zechariah Chafee for example evolved to provide a rationale for courts to act as a limited restraint on autocratic actions of the government But Chester goes further to examine an alternative theory civil liberties exist as absolute rights rather than being dependent on the specific circumstances of each case Over the years the debate about the right to dissent has intensified and become more necessary This fascinating book explains why a century after the First World War and in the era of Trump we need to know about this

Law and Law Enforcement Issues Gerald M. Kessler, 2008-02 This book presents important issues and developments in the law and law enforcement field including both federal and international laws and law enforcement

Terrorism Issues and Developments Janine A. Levy, 2007 Terrorism seems to have developed as a world wide virus causing harm and destruction where ever it turns up and turning up at unexpected places as no doubt all viruses are intended to do The attackers seek

weaknesses in the target countries and the target countries seek defences and deterrents against the attackers This new book highlights some of the anti terrorist actions underway **Civil-Military 'Legal' Relations: Where to from Here?**

Pauline Therese Collins,2018-04-03 Civil military relations establishes the civilian control over the military to protect democratic values This book argues analysis of the CMR is distorted by the absence of consideration of the judicial arm with the civil seen as referring only to the executive and or legislature The civil courts approach to military discipline and the impact that has for CMR within the United Kingdom United States and Australia is investigated The author concludes that by including the courts in the development of CMR theory militarisation of the civilian domain is discouraged A paradigm shift acknowledging the fundamental role of all three organs of government in liberal democracies for control of States power is essential for genuine civilian oversight *Liberty and Security in an Anarchical World Volume I* Brandon

Christensen,2024-12-07 This book takes a hard look at libertarian foreign policy doctrines especially those of non intervention interstate federalism and non aggression and applies new insights to these old doctrines Classical liberal thinkers such as Vincent Ostrom James Madison and F A Hayek have all hinted at the idea of world governance from a libertarian standpoint Yet today the libertarian position on foreign policy is either non intervention from the US side of the Atlantic or half hearted confederation from the European side of the Atlantic This volume I hones in on the problems of Westphalian sovereignty and its nationalist shortcomings while the other celebrates Westphalian sovereignty s achievements in regards to keeping imperialism at bay **Yearbook of International Humanitarian Law - 2003** Avril

McDonald,2006-12-31 Provides an international forum for high quality articles on the laws of armed conflict in international law **Writing History with Lightning** Matthew Christopher Hulbert,John C. Inscoe,2019-02-05 Films possess virtually

unlimited power for crafting broad interpretations of American history Nineteenth century America has proven especially conducive to Hollywood imaginations producing indelible images like the plight of Davy Crockett and the defenders of the Alamo Pickett s doomed charge at Gettysburg the proliferation and destruction of plantation slavery in the American South Custer s fateful decision to divide his forces at Little Big Horn and the onset of immigration and industrialization that saw Old World lifestyles and customs dissolve amid rapidly changing environments Balancing historical nuance with passion for cinematic narratives Writing History with Lightning confronts how movies about nineteenth century America influence the ways in which mass audiences remember understand and envision the nation s past In these twenty six essays divided by the editors into sections on topics like frontiers slavery the Civil War the Lost Cause and the West notable historians engage with films and the historical events they ostensibly depict Instead of just separating fact from fiction the essays contemplate the extent to which movies generate and promulgate collective memories of American history Along with new takes on familiar classics like Young Mr Lincoln and They Died with Their Boots On the volume covers several films released in recent years including The Revenant 12 Years a Slave The Birth of a Nation Free State of Jones and The Hateful Eight The authors

address Hollywood epics like *The Alamo* and *Amistad* arguing that these movies flatten the historical record to promote nationalist visions. The contributors also examine overlooked films like *Hester Street* and *Daughters of the Dust* considering their portraits of marginalized communities as transformative perspectives on American culture. By surveying films about nineteenth century America *Writing History with Lightning* analyzes how movies create popular understandings of American history and why those interpretations change over time.

Counter-terrorism, Constitutionalism and Miscarriages of Justice Genevieve Lennon, Colin King, Carole McCartney, 2018-11-01

The purpose of this book is to honour the influential and wide ranging work of Professor Clive Walker. It explores Professor Walker's influence from three perspectives. Firstly it provides a historical reflection upon the development of the law and policy in relation to counter terrorism and miscarriages of justice since the 1970s. This historical perspective which is often overlooked is particularly timely 17 years after 9/11 as trends become clearer and historical perspective even more valuable. So too with miscarriages of justice while there was considerable public and political scrutiny following high profile miscarriages such as the Birmingham Six, Guildford Four and others in the early 1990s today there is much less scrutiny despite significant concern relating to issues such as legal aid and access to justice increasing the potential if not likelihood for miscarriages to occur. By including a critical historical perspective this book enables us to learn lessons from the past and to minimise contemporary risks of miscarriages of justice. Secondly this book provides a critical analysis of the law and policy as it stands today and its future trajectory. Applying Walker's theoretical and analytical contributions to the field the authors focus on pressing contemporary concerns identifying lacunae where relevant as well as the possible probable and preferable future trends. Finally the book celebrates and recognises the significant contributions by Walker with each chapter built around one or more of Walker's key works.

United States Law and Policy on Transitional Justice Zachary Daniel Kaufman, 2016

In *United States Law and Policy on Transitional Justice: Principles, Politics and Pragmatics* Zachary D. Kaufman explores the U.S. government's support for or opposition to certain transitional justice institutions. By first presenting an overview of possible responses to atrocities such as war crimes tribunals and then analyzing six historical case studies Kaufman evaluates why and how the United States has pursued particular transitional justice options since World War II. This book challenges the legalist paradigm which postulates that liberal states pursue war crimes tribunals because their decision makers hold a principled commitment to the rule of law. Kaufman develops an alternative theory prudentialism which contends that any state liberal or illiberal may support bona fide war crimes tribunals. More generally prudentialism proposes that states pursue transitional justice options not out of strict adherence to certain principles but as a result of a case specific balancing of politics, pragmatics and normative beliefs. Kaufman tests these two competing theories through the U.S. experience in six contexts: Germany and Japan after World War II, the 1988 bombing of Pan Am flight 103, the 1990-1991 Iraqi offenses against Kuwaitis, the atrocities in the former Yugoslavia in the 1990s and the

1994 Rwandan genocide Kaufman demonstrates that political and pragmatic factors featured as or more prominently in U S transitional justice policy than did U S government officials normative beliefs Kaufman thus concludes that at least for the United States prudentialism is superior to legalism as an explanatory theory in transitional justice policymaking
