Mind's Eye Hakan Nesser, 2009-06-16 International Bestseller H kan Nesser is firmly established as one of the world's bestselling crime novelists And now the novel that introduced Chief Inspector Van Veeteren is available for the first time in English The swift conviction left Van Veeteren uneasy Janek Mitter woke one morning with a brutal hangover and his wife dead in the bathtub With only the flimsiest defense he is found guilty and imprisoned in a mental institution But when Mitter is murdered in his bed Van Veeteren regrets not following his gut and launches an investigation into the two murders As the chief inspector delves deeper the twisted root of these violent murders will shock even him **The Passive Eye** Branka Arsić, 2003 The Passive Eye is a revolutionary and historically rich account of Berkeley's theory of vision In this formidable work the author considers the theory of the embodied subject and its passions in light of a highly dynamic conception of infinity Arsić shows the profound affinities between Berkeley and Spinoza and offers a highly textual reading of Berkeley on the concept of an exhausted subjectivity The author begins by following the Renaissance universe of vision particularly the paradoxical elusive nature of mirrors then shows how this conception of vision was translated into the optical devices and in what way the various ways of deception could be conceived Reading Berkeley against the backdrop of competing theories in relation to Leibniz Spinoza Newton Malebranche Hume Locke Molyneux and others this book gives a meticulous historic reconstruction of Berkeley's theory This excellent scholarly work presents Berkeley's theory in a new and radical light The book presented in three parts begins by presenting the conceptions of vision prior to Berkeley's intervention In the second part the author moves through a careful study of Descartes theory of vision to arrive at Berkeley The third part addresses the author's version of Berkeley in which the eye and the image become inseparable due to the collapse of the universe of representation The problem of vision becomes not that of representation but of presentation Through an erudite historic reading of Berkeley's theory and astute comparative assessments the author uncovers Berkeley's place as a contemporary theoretician corresponding with such thinkers as Deleuze Lacan Foucault and Derrida **A Smile in His Mind's Eye** Ray Morrison, 2005-01-01 Durrell's best known work fused Western notions of time and space with Eastern metaphysics Very little has been written about Durrell's work before the Second World War With A Smile in His Mind's Eye Ray Morrison seeks to redress this neglect The Upanisads Signe Cohen, 2017-09-27 The Upaniads are among the most sacred foundational scriptures in the Hindu religion Composed from 800 BCE onwards and making up part of the larger Vedic corpus they offer the reader knowledge lessons on life death and immortality While they are essential to understanding Hinduism and Asian religions more generally their complexities make them almost impenetrable to anyone but serious scholars of Sanskrit and ancient Indian culture This book is divided into five parts Composition authorship and transmission of the Upaniads The historical cultural and religious background of the Upaniads Religion and philosophy in the Upaniads The classical Upaniads The later Upaniads The chapters cover critical issues such as the origins of the Upaniads authorship and redaction as

well as exploring the broad religious and philosophical themes within the texts The guide analyzes each of the Upaniads separately unpacking their contextual relevance and explaining difficult terms and concepts The Upaniads A Complete Guide is a unique and valuable reference source for undergraduate religious studies history and philosophy students and researchers who want to learn more about these foundational sacred texts and the religious lessons in the Hindu tradition
