The Complete Idiot's Guide to Native American History

Walter C. Fleming,2003 This book is a comprehensive overview of the history and culture of the peoples who are now known as the First Americans Author Walter C Fleming covers the many different tribes that stretched from the Atlantic to the Pacific including compelling biographies of their greatest leaders He examines the beliefs customs legends and the myriad contributions Native Americans have given to modern society and details the often tragic history of their conquest by European invaders their treatment both historical and recent under the U S government and the harsh reality of life on today's reservations

Bulletin of the Atomic Scientists ,1982-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world Rural Tourism Katherine Dashper,2015-01-12

Rural regions are experiencing fundamental challenges to their ways of life and social fabric as traditional land based occupations are in decline and younger and better educated rural residents migrate to cities for greater work social and cultural opportunities Rural tourism offers a possible solution to the problems associated with lost economic opportunities and population decline that accompany the waning of agriculture Many governments and regional authorities have embraced rural tourism as an opportunity to bring new money into rural regions stimulating growth providing employment opportunities and thus beginning to halt rural decline However the possibilities of rural tourism to promote rural regeneration have been criticised for being over stated and unrealistic Rural tourism has frequently been found to under deliver in terms of expected economic benefits and job creation and may sometimes exacerbate local hierarchies and inequalities This edited collection questions the contribution tourism can and does make to rural regions Drawing on a range of geographically diverse research driven case studies the book is thematically organised to explore a variety of issues relevant to rural tourism from the perspectives of local communities businesses government policy makers and the tourists themselves **The New Black** Kenneth W. Mack,Guy-Uriel Charles,2013-09-03 The election and reelection of Barack Obama ushered in a litany of controversial perspectives about the contemporary state of American race relations In this incisive volume some of the country's most celebrated and original thinkers on race historians sociologists writers scholars and cultural critics reexamine the familiar framework of the civil rights movement with an eye to redirecting our understanding of the politics of race Through provocative and insightful essays The New Black challenges contemporary images of black families offers a contentious critique of the relevance of presidential politics transforms ideas about real and perceived political power defies commonly accepted notions of blackness and generally attempts to sketch the new boundaries of debates over race in America Bringing a wealth of novel ideas and fresh perspectives to the public discourse The New Black represents a major effort to address both persistent inequalities and the changing landscape of race in the

new century With contributions by Elizabeth Alexander Jeannine Bell Paul Butler Luis Fuentes Rohwer Lani Guinier Jonathan Scott Holloway Taeku Lee Glenn C Loury Angela Onwuachi Willig Orlando Patterson Cristina M Rodriguez Gerald Torres

Surviving as Indians Menno Boldt, 1993-01-01 This study discusses the history of Indian policy in Canada and examines the areas of justice policy leadership culture and economy as factors in self government **The Miner's Canary** Lani GUINIER, Gerald Torres, Lani Guinier, 2009-06-30 Like the canaries that alerted miners to a poisonous atmosphere issues of race point to underlying problems in society that ultimately affect everyone not just minorities Addressing these issues is essential Ignoring racial differences race blindness has failed Focusing on individual achievement has diverted us from tackling pervasive inequalities Now in a powerful and challenging book Lani Guinier and Gerald Torres propose a radical new way to confront race in the twenty first century Given the complex relationship between race and power in America engaging race means engaging standard winner take all hierarchies of power as well Terming their concept political race Guinier and Torres call for the building of grass roots cross racial coalitions to remake those structures of power by fostering public participation in politics and reforming the process of democracy Their illuminating and moving stories of political race in action include the coalition of Hispanic and black leaders who devised the Texas Ten Percent Plan to establish equitable state college admissions criteria and the struggle of black workers in North Carolina for fair working conditions that drew on the strength and won the support of the entire local community The aim of political race is not merely to remedy racial injustices but to create truly participatory democracy where people of all races feel empowered to effect changes that will improve conditions for everyone In a book that is ultimately not only aspirational but inspirational Guinier and Torres envision a social justice movement that could transform the nature of democracy in America **Maritime Heritage in Crisis** Richard M. Hutchings, 2016-12-08 Maritime heritage landscapes are undergoing a period of unprecedented crisis severely impacted by coastal development population growth and climate change Presenting archaeology and CRM as a grave threat this volume offers an important lesson on the relationship between neoliberal heritage regimes and global ecological breakdown

Trans-Americanity José David Saldívar, 2012 In this book the author critiques the work of various writers within the framework of a globalized study of the Americas **Global Values 101** Ann S. Kim, Kate Holbrook, Brian Palmer, 2006-02-01 Global Values 101 grew out of one of the most popular courses ever offered at Harvard University in which some of the most original thinkers of our day sat down with students and explored how ideas have made them and can make us more engaged involved and compassionate citizens In these engrossing essay length interviews which address the topics of war religion the global economy and social change Amy Goodman host of the popular radio program Democracy Now speaks about the role of the independent media as gatekeeper and witness Lani Guinier author of Tyranny of the Majority reveals that students SAT scores more accurately describe the kind of car their parents drive than the grades they will earn in college and shows the way to a more equitable college admissions system Howard Zinn author of A People's History of the United States explores

the American Dream and exposes the myth of the good war economist Juliet Schor author of *Born to Buy* and *The Overspent American* explains why Americans are willing to sacrifice quality of life to attain financial success former mall rat Naomi Klein author of *No Logo* Taking Aim at the Brand Bullies urges readers to go global while fighting global conglomerates and Katha Pollitt author of *Reasonable Creatures* Essays on Women and Feminism employs her incisive wit to explore what it really means to be a feminist in the Twenty First century For anyone who has been moved by idealism and longed to become a more proactive citizen this collection offers a range of stories on how progressive ethics can inform inspire and ultimately transform lives

Conflict Minerals, Inc. Christoph N. Vogel, 2022-07-01 In the twenty first century the relationship between violent conflict and natural resources has become a matter of intense public and academic debate As a result of fervent activism and international campaigning the flagship case of conflict minerals has captured global attention This term groups together the artisanal tin tantalum coltan tungsten and gold originating from war zones in Central Africa Known as digital minerals for their use in high end technology their exploitation and trade has been singled out in numerous media and United Nations reports as a key driver of violence provoking an unprecedented popular outcry and prompting transnational efforts to promote conflict free ethical mining Focusing on the eastern Democratic Republic of the Congo *Conflict Minerals Inc* is the first comprehensive analysis of this phenomenon Based on meticulous investigation and long term fieldwork this book analyses why the campaign against unethical mining went awry and radically disrupted eastern Congo's political economy It dissects the evolution of the conflict minerals paradigm the policy responses it triggered and their impact on artisanal miners Vogel demonstrates how Western advocacy and policy have relied on colonial frames to drive change and how White Saviourism perpetuates structural violence and inequality across global supply and value chains

Andrews, 2010-09-01 This book offers a bold and original perspective on the 1914 Ludlow Massacre and the Great Coalfield War In a story of transformation Andrews illuminates the causes and consequences of the militancy that erupted in colliers strikes over the course of nearly half a century

The Call of the Honeyguide Rob Dunn, 2025-08-26 A must read David George Haskell that shows how rethinking our relationships with other species can help us reimagine the future of humankind In the woodlands of sub

Saharan Africa sometime deep in our species past something strange happened a bird called out not to warn others of human presence but to call attention to herself Having found a beehive that bird a honeyguide sought human aid to break in The behavior can seem almost miraculous How would a bird come to think that people could help her Isn't life simply bloodier than that As Rob Dunn argues in *The Call of the Honeyguide* it isn't Nature is red in tooth and claw but in equal measure life works together Cells host even smaller life wrapped in a web of mutual interdependence Ants might go to war but they also tend fungi aphids and even trees And we humans work not just with honeyguides but with yeast crops and pets Ecologists call these beneficial relationships mutualisms And they might be the most important forces in the evolution of life We humans often act as though we are all alone independent from the rest of life As *The Call of the Honeyguide* shows we are not It is a call to action for a more beneficent less lonely future
