Cranston,1999 *Reincarnation: an East-West anthology including quotations from the world's religions & from over 400 Western thinkers, comp* S. L. Cranston, Reincarnation. An East-West Anthology. Including Quotations from the World's Religions & from Over 400 Western Thinkers. Compiled and Edited by J. Head and S.L. Cranston Joseph HEAD (Anthologist, and CRANSTON (S. L.)),S. L. CRANSTON,1961 Reincarnation - an East-West Anthology Including Quotations from the World's Religious and from Over 400 Western Thinkers. Head & Cranston Head & Cranston,1961 *Death and Eternal Life* John Hick,1994-01-01 In this cross cultural interdisciplinary study John Hick draws upon major world religions as well as biology psychology parapsychology anthropology and philosophy to explore the mystery of death He argues that scientific and philosophical objections to the idea of survival after death can be challenged and he claims that human inadequacy in facing suffering supports the basic religious argument for immortality **Reincarnation in America** Lee Irwin,2017-07-31 *Reincarnation in America An Esoteric History* surveys the complex history of reincarnation theories across multiple fields of discourse in a pre American context ranging from early Greek traditions to Medieval Christian theories Renaissance esotericism and European Kabbalah all of which had adherents that brought those theories to America Rebirth theories are shown in all these groups to be highly complex and often disjunctive with mainstream religions even though members of conventional religions frequently affirm the possibility of rebirth As a history of an idea reincarnation theory is a current vital belief pattern that cuts across a wide spectrum of social cultural and scientific domains in a long complex history not reducible to any specific religious or theoretical explanation This book is cross disciplinary and multicultural linking religious studies perspectives with science based research it draws upon many distinct disciplines and avoids reduction of reincarnation to any specific theory The underlying thesis is to demonstrate the complexity of reincarnation theories what is unique is the historical overview and the gradual shift away from religious theories of rebirth to new theories that are therapeutic and trans traditional **Return of the Revolutionaries** Walter Semkiw,2025-09-12 Two hundred and twenty five years ago a political revolution took place in this country which swept power from the English monarchy and gave it to the people of the New World Today a spiritual revolution is underway in which spiritual power and responsibility are passing from institution to individuals You ll be shocked to learn that the same people are at the heart of both world changing movements John Adams Thomas Paine Samuel Adams the justices of the first Supreme Court and numerous other American Revolutionaries have been reincarnated as the political and spiritual leaders of today including George W Bush Bill Clinton Al Gore Marianne Williamson Shirley MacLaine and others Semkiw presents ample evidence that physical appearance character

traits modes of thinking and expression as well as family and karmic groups often stay the same from lifetime to lifetime He s also included photographs demonstrating the startling physical similarities the individuals of the American Revolution share with today s revolutionaries As further support of the basic premise and reality of reincarnation Semkiw has included Dr Ian Stevenson s groundbreaking findings of children who report past lives as well as other case studies of individuals who have researched and written on their own past lives Discusses new research into using DNA to prove reincarnation Find out how physical appearance character traits synchronistic events karmic groups and spiritual guidance can be used to detect one s past lives Includes numerous black white photographs dramatically illustrating the similar physical appearance of revolutionaries past and present

Reincarnation Joel Bjorling, 2013-08-21 First Published in 1996 You may have lived before As a matter of fact you may have experienced countless lifetimes This statement constitutes the basic premise of reincarnation which is also called transmigration and metempsychosis This volume explores the origins and development of the belief of reincarnation *Where Airy Voices Lead* Piotr Bienkowski, 2020-05-29 Many have pursued and continue to pursue real immortality by seeking to prolong their lives on this earth Others pursue symbolic or proxy immortality through children fame or being part of something long lasting One can imagine these different forms of immortality as a menu of options of how to live forever you click the one that appeals to you most and best fits your beliefs hopes values and worldview

EXPLORING REINCARNATION Hans TenDam, 2012-12-31 Exploring Reincarnation examines the full range of explanations for past life recall This definitive study includes case histories from around the world as well as intriguing theories about the relationship between body and soul from general social beliefs about past lives to detailed questions about karma and past life regression therapy An outstanding introduction to reincarnation from a historical scientific and philosophical point of view Exploring Reincarnation is the now classic panorama on reincarnation ideas and experiences

an internal subjective experience Quantum physics its contribution to a new scientific paradigm The Mystery Teachings of All Ages their worldwide unity and central message Wet computers and computers Is the brain no different in principle from a computer Death and after the transition and continuity of consciousness in other realms Paranormal phenomena and apparitions Subtle bodies Evolution and destiny Powers latent in human beings Divinity and the united message of all world religions The question of immortality The primacy of consciousness and the manner of its unfoldment from the unmanifest realms to the physical world Edi Bilimoria s guest appearance on the Shepherd Walwyn podcast series can be found on this link <https://shepherdwalwyn.com/edi-bilimoria-unfolding-consciousness-why-sapolsky-is-wrong-and-how-to-get-in-tune-with-life>

The Living Classroom, Second Edition Christopher M. Bache,2024-12-01 A pioneering work in teaching and transpersonal psychology The Living Classroom explores the dynamics of collective consciousness in the classroom In this second edition Bache has in his own words come out of the psychedelic closet speaking candidly about the role that psychedelics played in the development of his integral holistic pedagogy Combining scientific research with personal accounts collected over thirty years Bache examines the subtle influences that radiate invisibly around teachers as they work unintended cognitive resonances that spring up between teachers and students in the classroom While these kinds of synchronistic connections are often overlooked by traditional academics Bache demonstrates that they occur too frequently and are too pointed to be dismissed as mere coincidence Drawing upon Rupert Sheldrake s theory of morphic fields Bache proposes that well taught courses generate learning fields around them forms of collective consciousness that can trigger new insights and startling personal transformations Moving beyond theory this book is rich with student stories and offers practical hands on strategies for teachers who want to begin working with these learning fields to take their teaching to a more conscious level

Suggestions for Thought by Florence Nightingale Michael D. Calabria,Janet A. Macrae,2013-09-03 Florence Nightingale is best known as the founder of modern nursing a reformer in the field of public health and a pioneer in the use of statistics It is not generally known however that Nightingale was at the forefront of the religious philosophical and scientific thought of her time In a three volume work that was never published Nightingale presented her radical spiritual views motivated by the desire to give those who had turned away from conventional religion an alternative to atheism In this volume Michael D Calabria and Janet A Macrae provide the essence of Nightingale s spiritual philosophy by selecting and reorganizing her best written treatments The editors have also provided an introduction and commentary to set the work into a biographical historical and philosophical context This volume illuminates a little known dimension of Nightingale s personality bringing forth the ideas that served as the guiding principles of her work It is also an historical document presenting the religious issues that were

fiercely debated in the second half of the nineteenth century In *Suggestions for Thought* one has the opportunity to experience a great practical mind as it grapples with the most profound questions of human existence
