An Introduction to Religious Language Valerie Hobbs, 2020-12-10 Religious language is all around us, embedded in advertising, politics, and news media. This book introduces readers to the field of theolinguistics, the study of religious language. Investigating the ways in which people talk to and about God, about the sacred, and about religion itself, it considers why people make certain linguistic choices and what they accomplish. Introducing the key methods required for examining religious language, Valerie Hobbs acquaints readers with the most common and important theolinguistic features and their functions. Using critical corpus-assisted discourse analysis with a focus on archaic and other lexical features, metaphor, agency, and intertextuality, she examines religious language in context. Highlighting its use in both expected locations such as modern-day prayer and politics and unexpected locations including advertising, sport, healthcare, and news media, Hobbs analyses the shifting and porous linguistic boundaries between the religious and the secular. With discussion

questions and further readings for each chapter as well as a companion website featuring suggested answers to the reflection tasks this is the ideal introduction to the study of religious language

Modernity and its Futures Past Nishad Patnaik, 2023-11-20 The work reimagines emancipatory possibilities in the face of reified capitalist modernity The enlightenment resulted in a disenchanted world

stripped of anthropomorphised meaning and purpose This world in its capitalistic figuration alienates us from others and from nature To rearticulate emancipatory possibilities requires a non alienated relation to society and nature Yet modernist disenchantment cannot be undone by returning to pre modern enchantment Rather such rearticulation calls for the recovery of unalienated life from within non reified modernity by renewing its universalist dimension
